HORIZON STRUCTURE

WIDENING AND ERA: RATIONALE

WIDENING PART

Significant disparities of R&I performance within the EU and low participation of some countries in FPs due to:

- reduced access to international networks
- system learning effects
- problems with information, communication and training
- insufficient national R&D investments
- lack of synergies between national research systems and EU research landscape

ERA PART

Reforming and enhancing the EU R&I system - calls structured around 4 strands corresponding to 4 objectives of the new ERA:

1. Prioritise investments and reforms
2. Improve access to excellence
3. Translate R&I results into the economy
4. Deepening the ERA

- **principle of excellence remains the cornerstone for all investments under ERA**

WP 2021 – 2022: OBJECTIVES

- Underpin geographical diversity and build the necessary capacity to allow successful participation in the R&I process
- Foster brain circulation across ERA through mobility of researchers and innovators, to address current imbalances
- Improve research management capacities
- Deepen the ERA
- Reinforce the interaction between education and research by dissemination and exploitation of research results
- Strengthen collaborative links across EU and open up European R&I networks

NEW ELEMENT – DESTINATIONS

- Two destinations in Widening part
- Destination 1: Improved access to excellence (TEAMING, TWINNING, TWINNING Western Balkans, Excellence Hubs, European Excellence Initiatives, Support for R&I in WB, Hop On Facility)
- Destination 2: Attracting and mobilising the best talents (ERA Chairs, Fostering Balanced Brain Circulation – BBC – ERA Fellowships and ERA Talents)

Each destination defines Expected impacts (need to set in the proposal a credible pathway to contributing to the expected impacts)

NEW ELEMENT – ELIGIBILITY OF R&I COSTS

Regulation establishing HORIZON, Article 2 – Definitions, paragraph (25h)

„coordination and support action“ means an action contributing to the objectives of the HORIZON programme, excluding research and innovation activities, except when undertaken under the component „widening participation and spreading excellence“ of the part „Widening Participation and Strengthening the ERA“; ...

Research and innovation costs are
eligible in CSA for Widening
instruments

PROPOSAL RANKING

- In the first place, ex aequo proposals will be prioritised according to geographical diversity criterion with the aim to better spread the impact of the projects and to strengthen the efficiency of the Widening instruments
- This procedure is valid for TEAMING, TWINNING, ERA Chairs and Excellence Hubs, not foreseen for EEI as not so many applications are expected

Geographical diversity criterion for
ex aequo proposals
