

TOPICS OF ERA 2022 CALL

Anna Vosečková, WIDERA NCP, EIT NCP
Information day on ERA call 2022
11 March 2022, Prague - online

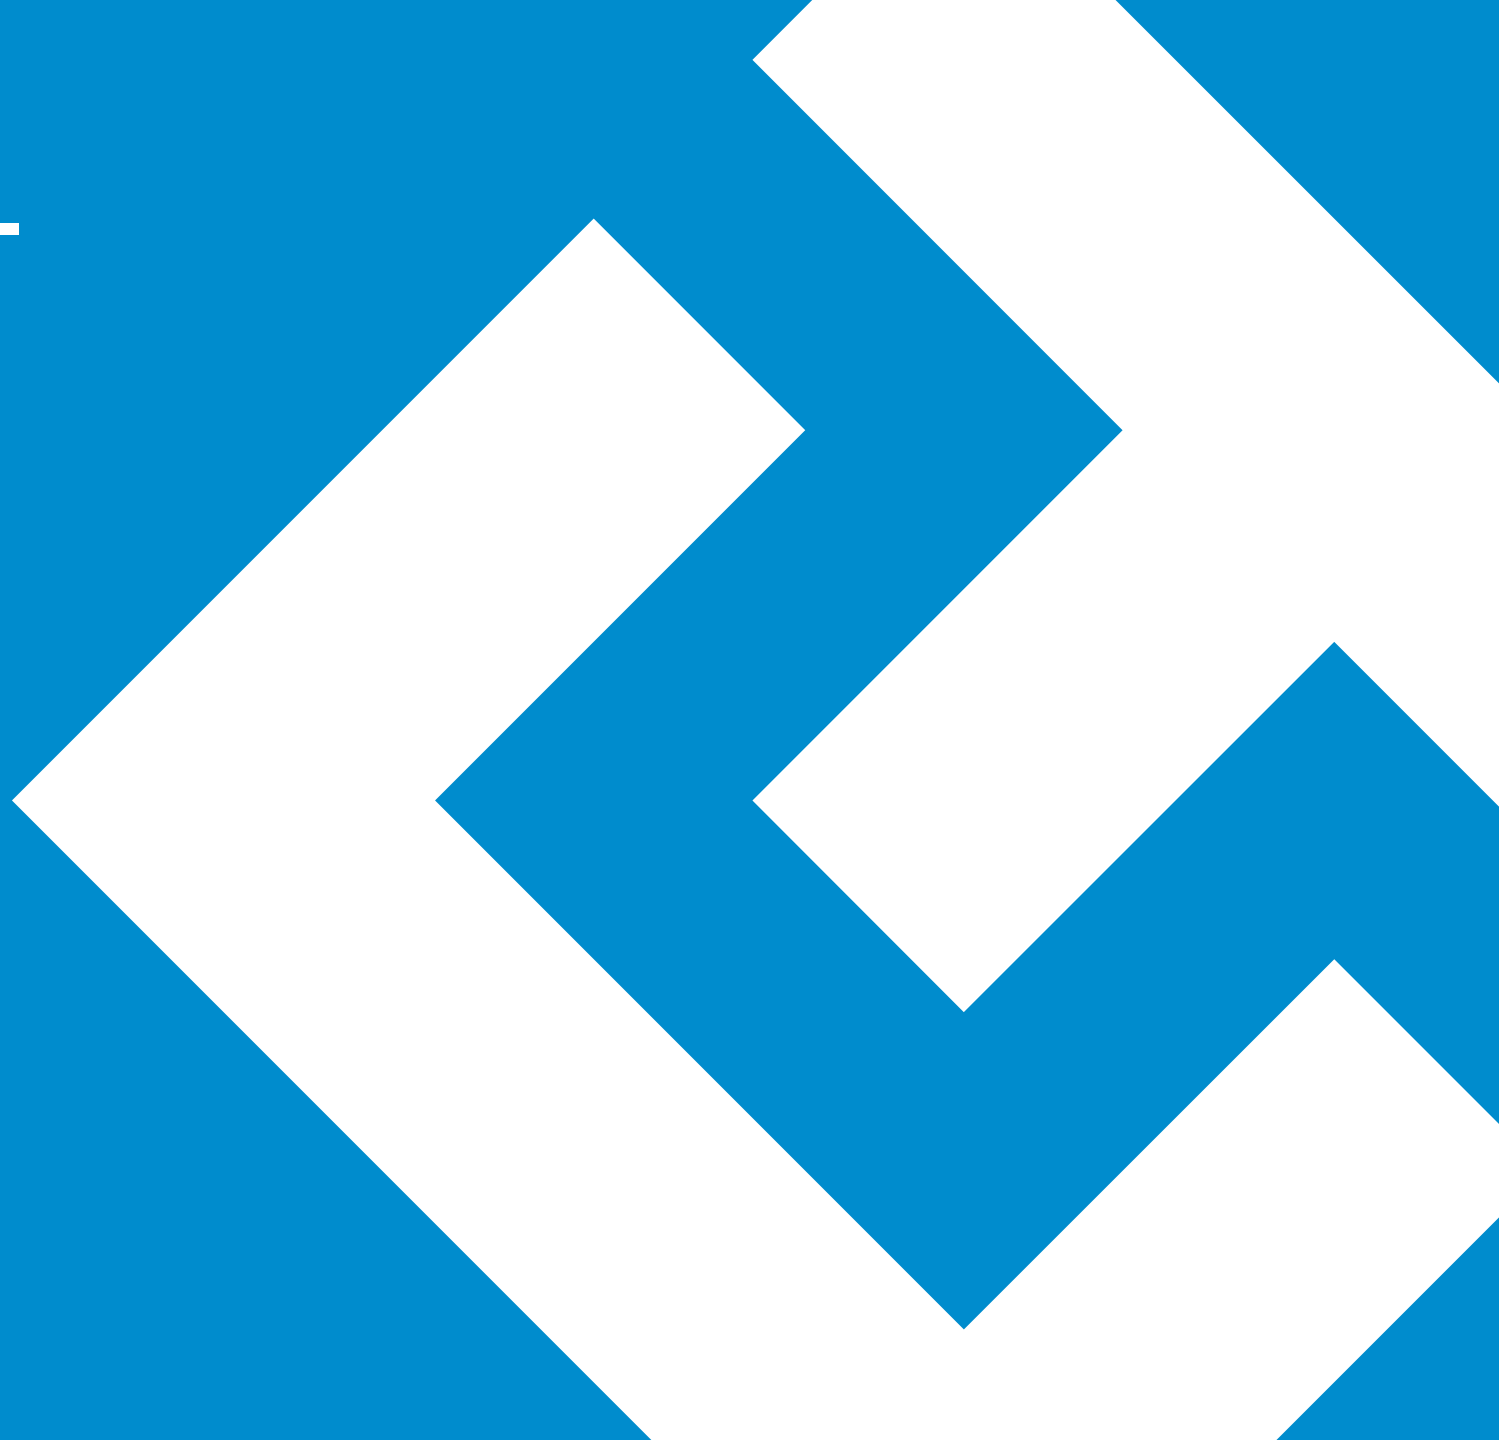

14 ERA TOPICS 2022 (EXPECTED - 25 PROJECTS)

- Support for policy makers – Programme level collaboration between national R&I programmes
- Testing of the ERA Hub concept – pilot phase
- An experimentation space for the uptake and use of R&I results for EU resilience and future preparedness
- Stepping-up institutional and territorial changes towards open and responsible research and innovation
- Increasing the reproducibility of scientific results
- Supporting the development of aligned policies for open access books and monographs
- Developing and piloting training on the practice of open and responsible research and innovation
- Developing an effective ERA talent pipeline
- Acceleration Services in support of the institutional transformation of Higher Education Institutions
- A European competence centre for science communication
- Open schooling for science education and a learning continuum for all
- Living Lab for gender-responsive innovation
- Support to the implementation of inclusive gender equality plans
- The empirical and behavioural approach to research ethics and integrity

HORIZON-WIDERA- 2022-ERA-01-10

—

Support for policy makers –
Programme level
collaboration between
national R&I programmes

SUPPORT FOR POLICY MAKERS – PROGRAMME LEVEL COLLABORATION BETWEEN NATIONAL R&I PROGRAMMES 1

SCOPE

- European Partnerships limits co-funding to Member State collaboration to Union and Horizon Europe priorities >> ERA part provides the possibility to maintain existing and establish new collaborations (ERA-NET type projects as in FP6)
- Alignment of national and regional research funding programmes (managed by national or regional programme owners / managers) on common priorities and implementation of joint calls
- Need to demonstrate clear commitments from participating programmes to pool resources and potential impact on R&I at national, regional and transnational level
- Activities have to exclude overlaps with on-going actions co-funded by the EU under Horizon 2020 or Horizon Europe

SUPPORT FOR POLICY MAKERS – PROGRAMME LEVEL COLLABORATION BETWEEN NATIONAL R&I PROGRAMMES 2

EXPECTED OUTCOMES

- Identification of common research and innovation priorities agreed among the participating national and regional R&I programmes
- Implementation of multiannual joint calls, resulting in the funding of transnational collaborative R&I projects
- Implementation of other joint activities supporting the market, regulatory or societal uptake of results
- Contribution to participating states meeting Global Challenges, including relevant contribution to the SDGs

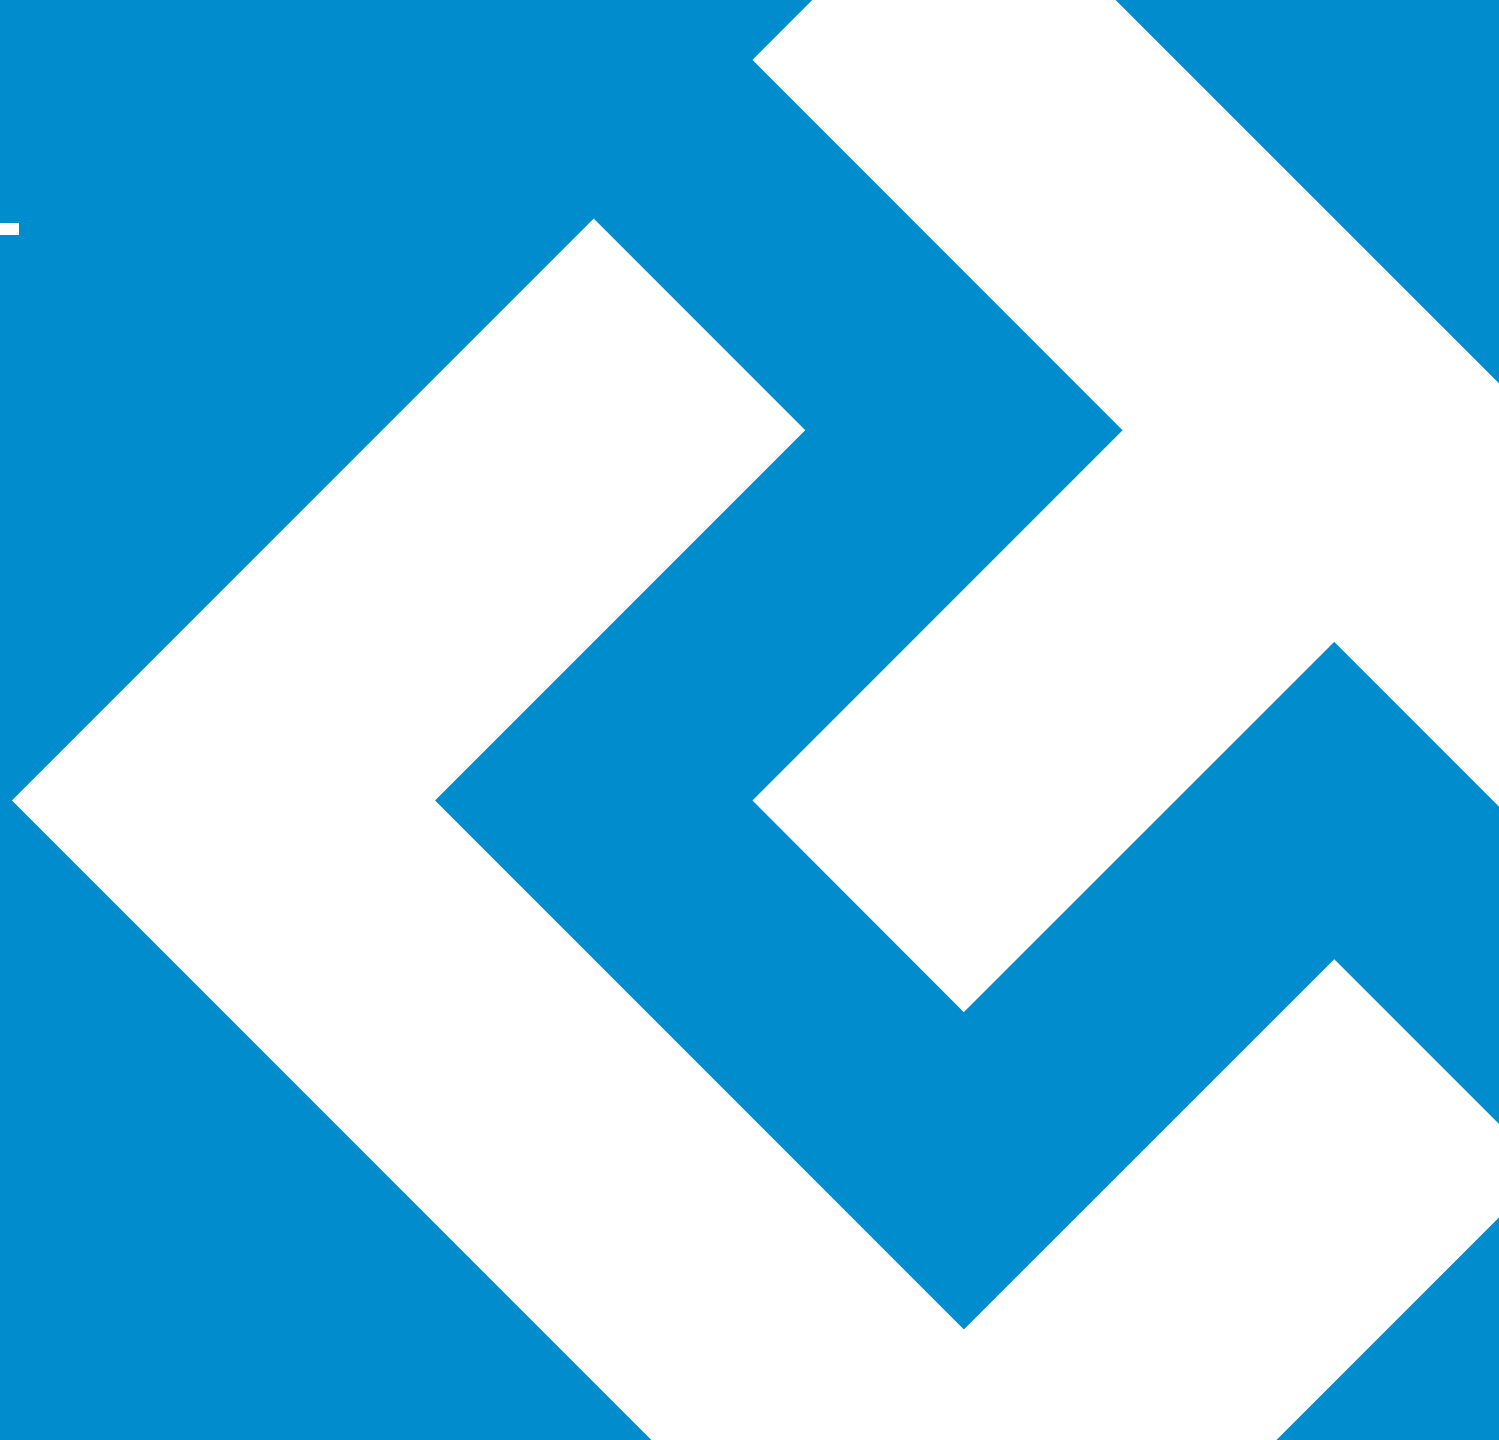

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-10
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 7,5
- Budget per project: M€ 2-3
- Project duration: not specified
- Consortium: min. 1 + 2
- Non-associated third countries legal entities may exceptionally participate
- Expected no. of projects: 3

HORIZON-WIDERA- 2022-ERA-01-30

—

Testing of the ERA Hub
concept – pilot phase

TESTING OF THE ERA HUB CONCEPT – PILOT PHASE 1

SCOPE

- Build on the preparatory work of the previous action in H2020 on Knowledge Ecosystems (mapping of existing ecosystem actors engaged in knowledge production, circulation and use across Europe and designing the ERA Hubs concept as a toolbox of pre-defined common standards of work, processes and outputs, and KPIs on operational, programme and strategic impacts)
- Pilot the ERA Hub concept with a limited number of ecosystems through implementation in countries and regions where knowledge ecosystem structures aligned to the ERA Hubs concept already exist, combined with countries or regions where an integrated place-based approach is missing
- Fine-tune through experimentation the designed concept of ERA Hubs and its technical specifications and compliance criteria, and provide a toolkit of best practices and activities that ensure a strong basis for a potential scale-up in different geographies across the EU in the next phase
- Support from institutional, regional, or national sources is highly encouraged (proven through e.g. letters of commitment)

TESTING OF THE ERA HUB CONCEPT – PILOT PHASE 2

EXPECTED OUTCOMES

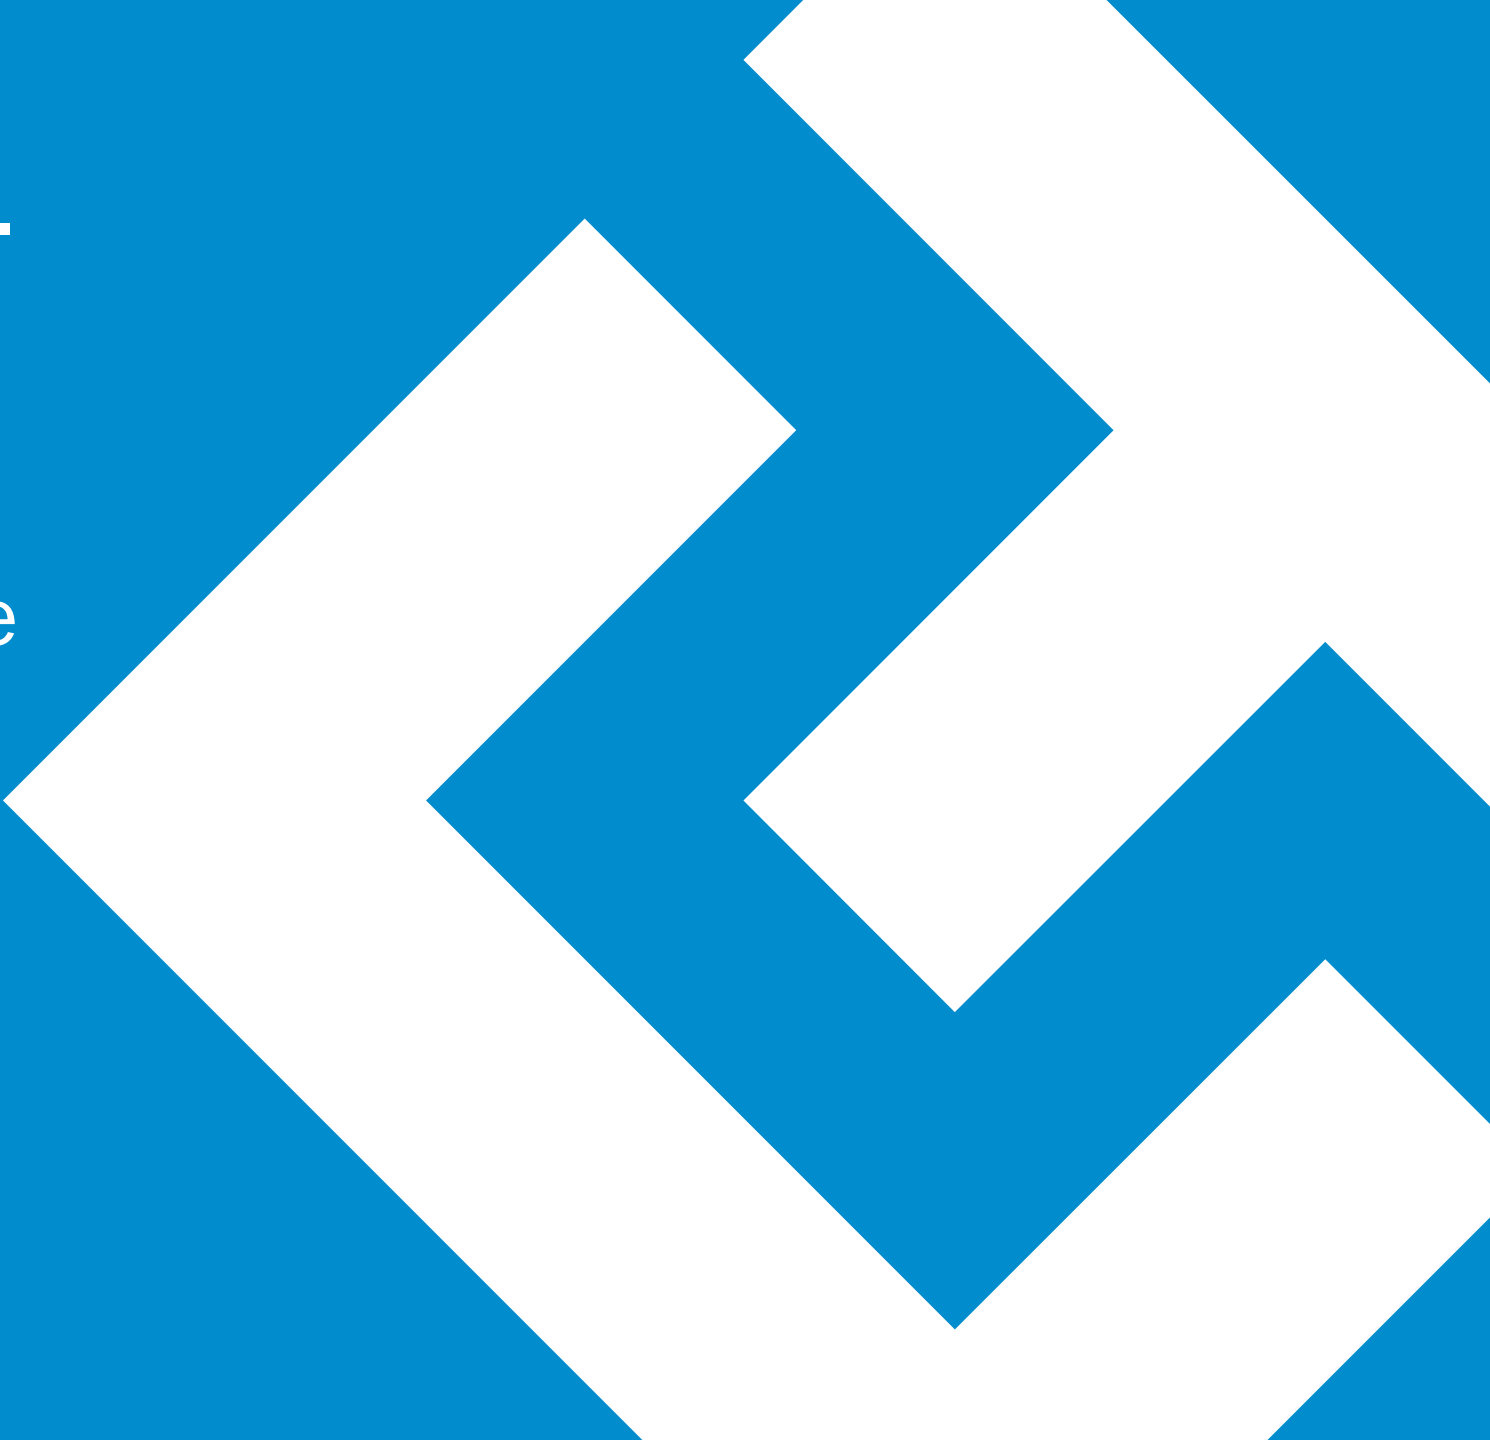

- Platform for collaboration and best practice sharing across borders, sectors and disciplines on knowledge production, circulation and use
- Increase of interoperability of the European ecosystems and the intra-operability within each territorial ecosystem
- Better circulation and absorption of talents, knowledge circulation and uptake of research results
- Toolbox of best practices for researchers, innovators, industry and institutions across Europe to cooperate

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-30
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 1.5
- Project duration: not specified
- Consortium: min. 1 + 2
- Expected no. of projects: 2

HORIZON-WIDERA- 2022-ERA-01-32

—
An experimentation space
for the uptake and use of
R&I results for EU
resilience and future
preparedness

AN EXPERIMENTATION SPACE FOR THE UPTAKE AND USE OF R&I RESULTS FOR EU RESILIENCE AND FUTURE PREPAREDNESS 1

SCOPE

- Aims at increasing the visibility and fostering the use of R&I results with high policy relevance to contribute to the recovery and resilience of Europe, while engaging research communities and citizens in an “experimentation space” for new, science based, socially inclusive and gender responsive policy initiatives and solutions
- Match policy relevant findings for EU resilience stemming from research with national, regional and local needs and carry out the experimentation phase in co-creation with the research communities and citizens
- Design of appropriate trial mechanisms that will test research findings which can be translated to policy and new societal solutions
- Consider links with related knowledge management activities by the European Commission, including the EC’s Knowledge Centres and the Knowledge for Policy Platform hosted by the JRC

AN EXPERIMENTATION SPACE FOR THE UPTAKE AND USE OF R&I RESULTS FOR EU RESILIENCE AND FUTURE PREPAREDNESS 2

EXPECTED OUTCOMES

- Methodology and toolbox to design and implement testing of policy relevant findings stemming from European R&I
- Knowledge base of EU research findings, with high capacity to inform policy and engage citizens and research communities (testing, methodologies for testing - small scale experiments, randomised control trials etc.)
- Lessons learnt to enhance the use of R&I results to enable fast response in the face of future crises and strengthen economic and social resilience

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-32
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 3
- Project duration: not specified
- Financial support € 60 00 max. to third parties (grants) can be provided
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-40

—
Stepping-up institutional and
territorial changes towards
open and responsible
research and innovation

STEPPING-UP INSTITUTIONAL AND TERRITORIAL CHANGES TOWARDS OPEN AND RRI 1

SCOPE

- This action consists of three parts, all of which must be addressed:
 1. Consolidating the evidence base and develop innovative guidance and other materials, which can support institutions and territories to implement sustainable institutional changes and open up to society
 2. Financial support to third parties, by launching ‘cascading grant’ call(s) to support institutions and territories from across the ERA to implement sustainable institutional changes towards open and responsible research and innovation (€ 60 000 max.)
 3. Acting as a central point of expertise and support services on open and responsible research and innovation for institutions and projects under Horizon Europe and within the ERA

STEPPING-UP INSTITUTIONAL AND TERRITORIAL CHANGES TOWARDS OPEN AND RRI 2

EXPECTED OUTCOMES

- Consolidated evidence base on sustainable institutional and territorial changes towards open and responsible research and innovation
- Central point of expertise providing services and support
- Significant number of institutions and territories in the ERA become more porous to society, align with the needs, values and expectations of society, improve the excellence of their R&I, promote GE and reduce instances of ethical misconduct
- Reduction in disparities between institutions and territories

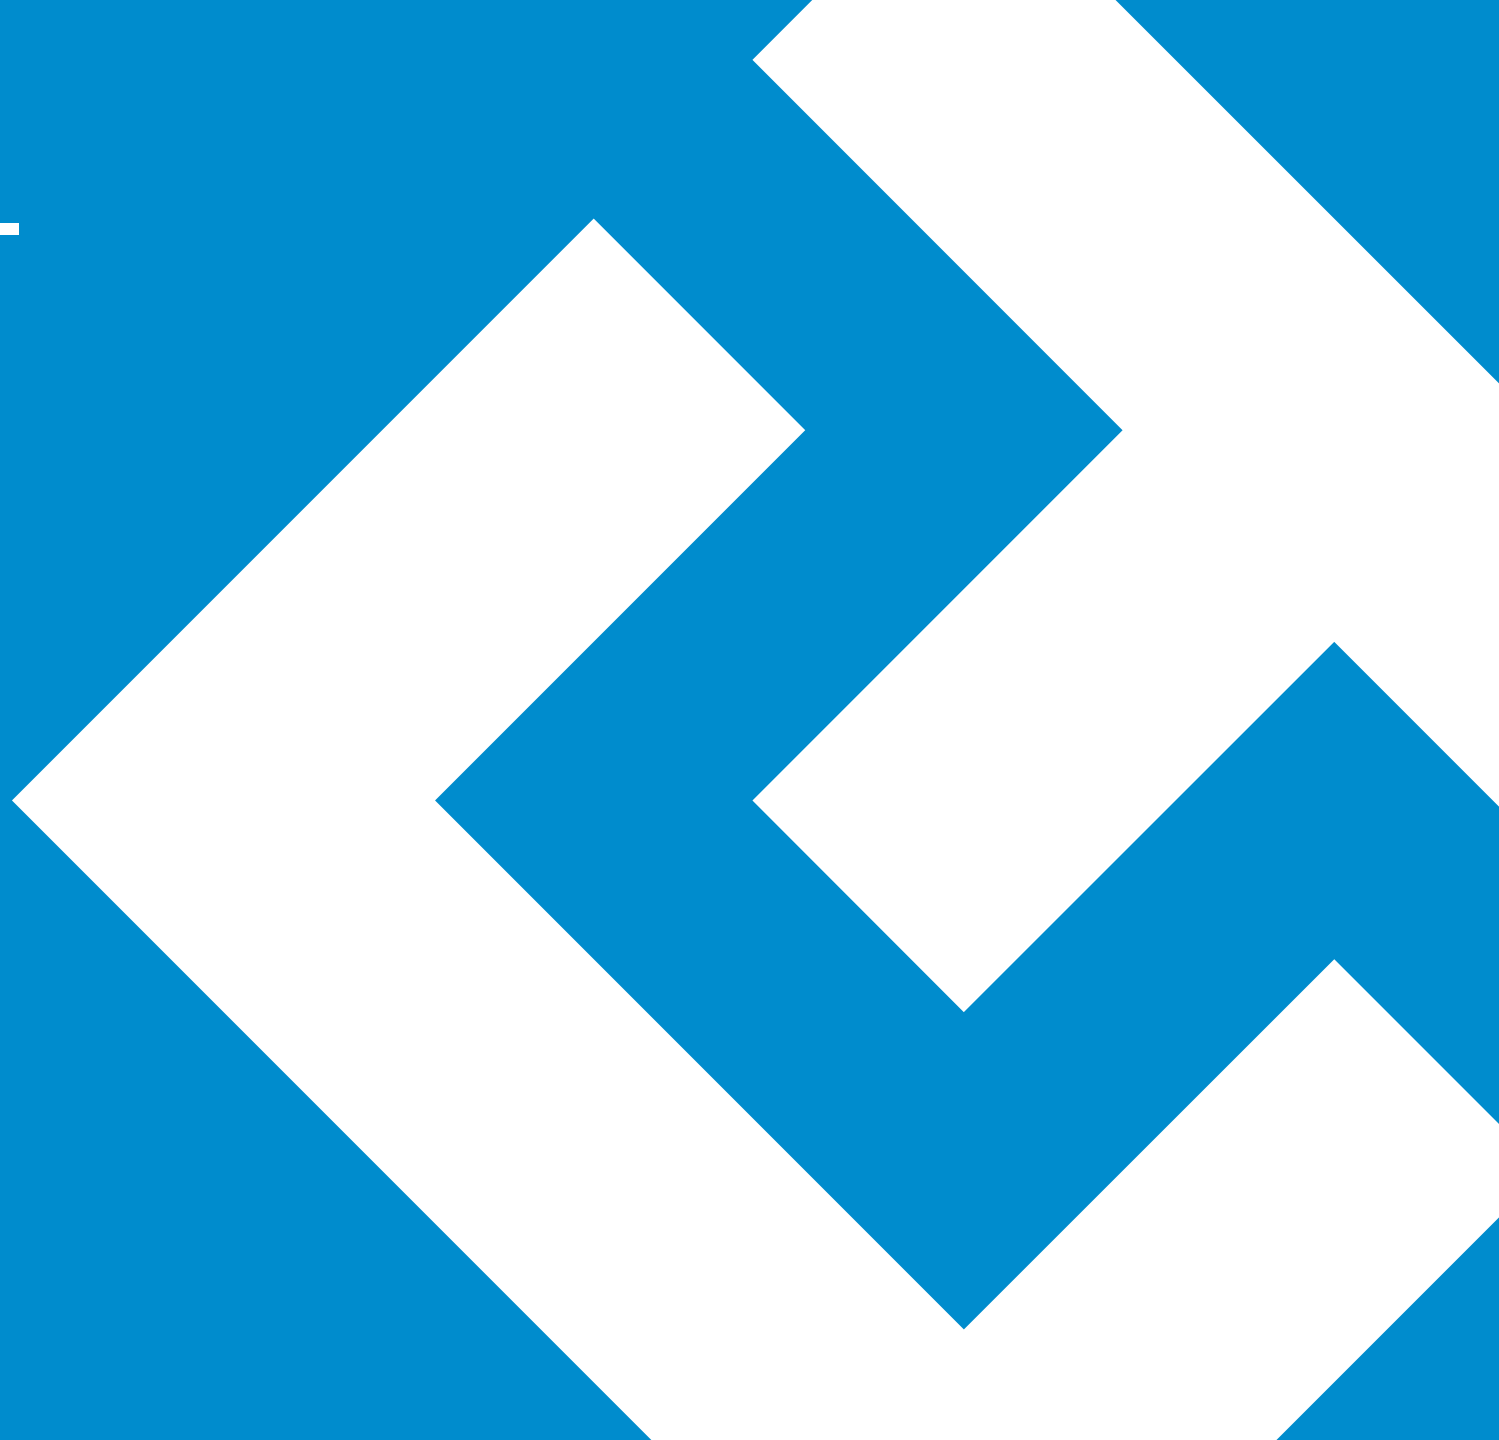

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-40
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 5
- Budget per project: M€ 5
- Project duration: not specified
- Non-associated third countries legal entities may exceptionally participate
- Financial support € 60 00 max. to third parties (grants) can be provided
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-41

—

Increasing the
reproducibility
of scientific results

INCREASING THE REPRODUCIBILITY OF SCIENTIFIC RESULTS 1

SCOPE

- Determine how increased reproducibility generates gains and savings in the R&I process and improve overall performance - alongside the demonstrated positive effects on their quality, integrity and trust-worthiness
- Find, experiment and mainstream concrete solutions and best-practices to increase the reproducibility of research
- Create an open knowledge base of results, methodologies and interventions on the drivers and consequences of reproducibility for the R&I system
- Develop, validate, pilot and deploy practices and practical tools for funders, publishers and scientists
- Promote uptake, greater collaboration and increased alignment of the activities of stakeholders - scientific and technical communities, publishers and funders among others - to increase reproducibility

INCREASING THE REPRODUCIBILITY OF SCIENTIFIC RESULTS 2

EXPECTED OUTCOMES

- Structured understanding of the underlying drivers, of concrete and effective interventions to increase reproducibility of the results of R&I; and of their benefits
- Effective solutions to increase the reproducibility of R&I results in funding programmes, in communities and in the dissemination of scientific results
- Greater collaboration, alignment of practices and joint action by stakeholders to increase reproducibility, including training, specialised careers and guidelines for best practice

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-41
- 19 January 2022 - 20 April 2022
- Type: RIA
- Overall indicative budget: M€ 4
- Budget per project: M€ 2
- Project duration: not specified
- Consortium: min. 1 + 2
- Expected no. of projects: 2

HORIZON-WIDERA- 2022-ERA-01-42

—
Supporting the development
of aligned policies for
open access books and
monographs

SUPPORTING THE DEVELOPMENT OF ALIGNED POLICIES FOR OPEN ACCESS BOOKS AND MONOGRAPHS 1

SCOPE

- Support the development of aligned institutional and funder policies and strategies regarding open access to books and monographs in Europe:
 1. Activities that foster greater understanding of bottlenecks in the development of policies and strategies for open access to books and monographs by institutions and funders
 2. Coordination of policies amongst funders and research institutions, and the sharing of good practices in policies and strategies for open access to books and monographs
 3. Actionable and evidence-based recommendations and resources for comprehensive institutional and funder policies for open access to books and monographs
- Envisage international cooperation with entities outside the EU Member States and associated countries

SUPPORTING THE DEVELOPMENT OF ALIGNED POLICIES FOR OPEN ACCESS BOOKS AND MONOGRAPHS 2

EXPECTED OUTCOMES

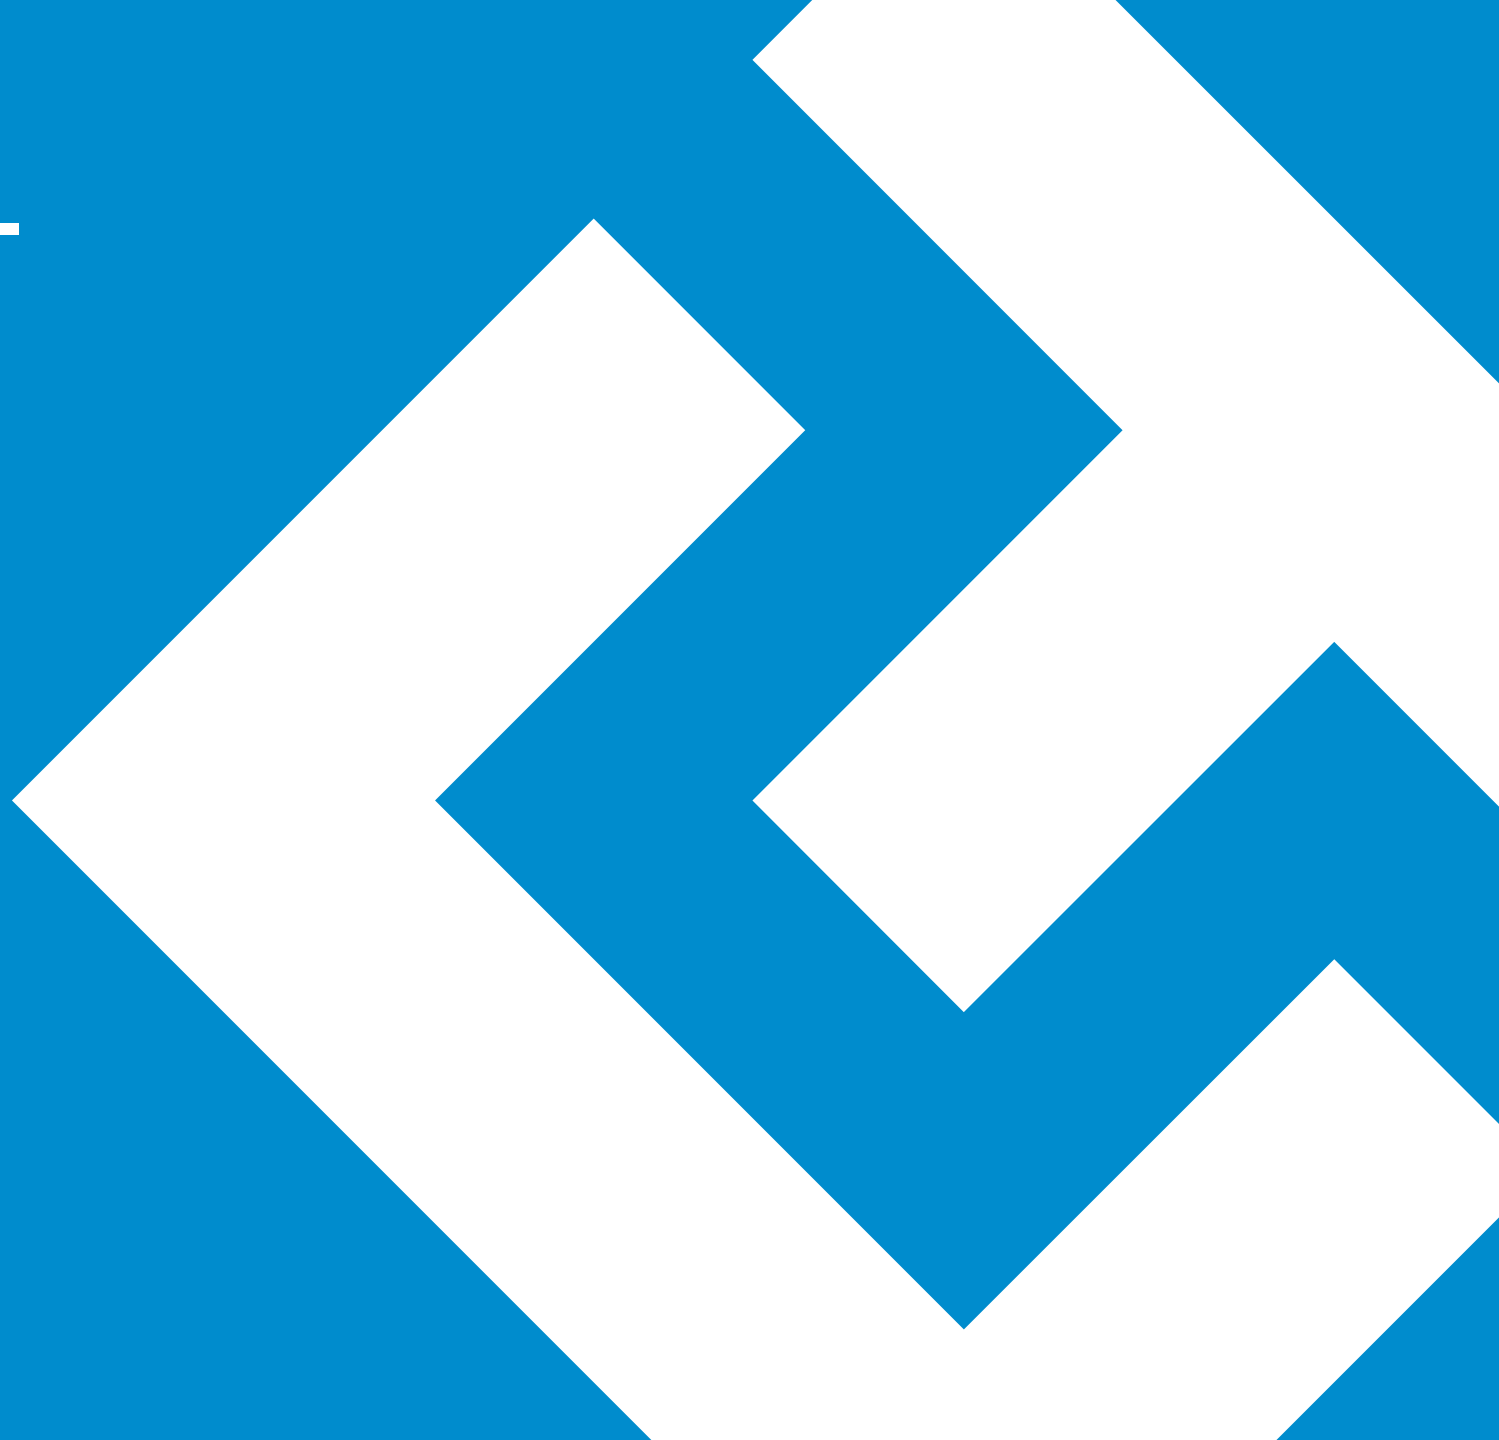

- Improve the understanding of the current landscape of scientific book and monograph publishing and the bottlenecks in strategies and policies for their OA
- Support aligned funder and institutional policies for OA monographs and books within the open science culture in the ERA
- Address and increase equity, diversity and inclusivity in open science practices inside the ERA
- Increased capacity in the EU R&I system to conduct open science and to set it as a *modus operandi* of modern science

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-42
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 2
- Budget per project: M€ 2
- Project duration: not specified
- Non-associated third countries legal entities may exceptionally participate
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-44

—
Developing and piloting
training on the practice
of open and responsible
research and innovation

DEVELOPING AND PILOTING TRAINING ON THE PRACTICE OF OPEN AND RESPONSIBLE RESEARCH AND INNOVATION 1

SCOPE

- Action consists of three parts, all of which must be addressed:
 1. Consolidating existing evidence on researcher training on open and RRI including mutual learning activities within and outside the European Research Area to ensure established and emergent good practices are considered
 2. Developing training modules, courses or other kinds of interventions on open and RRI with attention to the gender dimension of the training/learning outcomes, and ensuring that the training is adapted and piloted to researchers of all backgrounds
 3. Establishing a platform, sustainable beyond the lifetime of project funding, to continue knowledge exchange, develop guidance, and further develop training including the wide dissemination of policy recommendations
- Improved skills leading to greater employability and career prospects for researchers
- Improved engagement and cooperation of researchers, with communicators, journalists, industry, policy maker and civil society

DEVELOPING AND PILOTING TRAINING ON THE PRACTICE OF OPEN AND RESPONSIBLE RESEARCH AND INNOVATION 2

EXPECTED OUTCOMES

- Consolidated evidence base on open and RRI training for researchers at all stages of their careers across the ERA
- Development and piloting of high-quality training to a significant number of researchers on diverse aspects of open and RRI
- Establishment of a platform for further development of training, mutual learning, and dissemination of recommendations to authorities and institutions responsible for researcher training

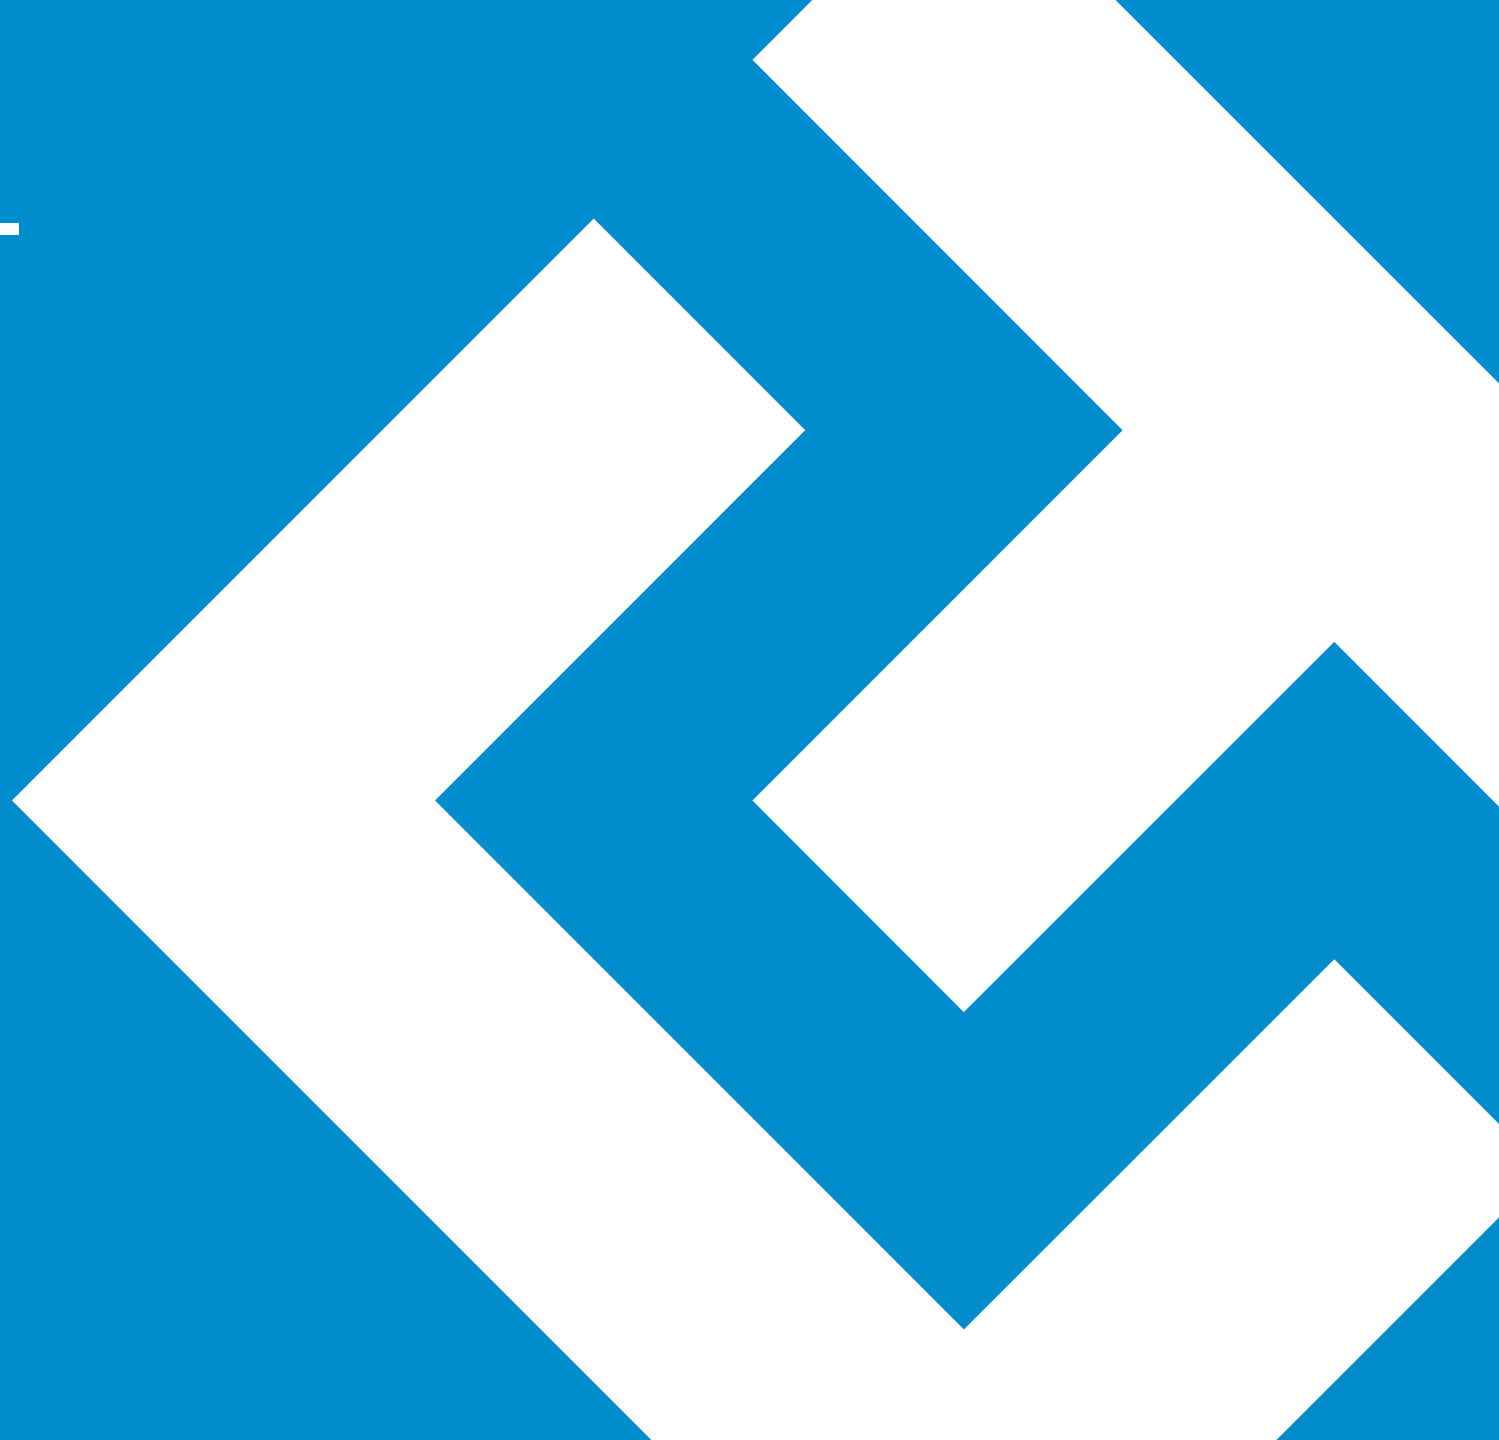

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-44
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3,5
- Budget per project: M€ 3,5
- Project duration: not specified
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-50

—

Developing an effective
ERA talent pipeline

DEVELOPING AN EFFECTIVE ERA TALENT PIPELINE 1

SCOPE

- Improve transferable skills training, involving non-academic actors in education and training of researchers
- Improve talent transfer to actors in the surrounding ecosystem
- Improve value creation practices among higher education institutions
- Communicate about the competences and qualifications of researchers and their talents to economic actors and society as a whole
- Initiatives enabling the sustainable and dynamic interaction within and between the ecosystem actors for knowledge production, circulation and use, and stimulating career fluidity
- Embed additional elements in the assessment schemes for both organisations and individuals at all career stages
- Propose methodologies on how to introduce skills requirements from the business, social and public sector to academia.

DEVELOPING AN EFFECTIVE ERA TALENT PIPELINE 2

EXPECTED OUTCOMES

- Creation of a common academic researchers' career structure, linking it to the updated European Skills Competences and Occupations (ESCO) framework
- Enabling recognition of the ESCO qualifications profile - competences that PhD trainees and postdocs in various stages of their careers
- Mainstreaming of tenure track like systems to improve career development
- Mainstreaming practices for HEIs to involve non-academic sector in training & career development of PhD students
- Mainstreaming value creation and inter-sectoral mobility schemes within HEIs to promote jobs and growth

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-50
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 1,5 - 2
- Project duration: 2 years
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-51

—
Acceleration Services in
support of the institutional
transformation of Higher
Education Institutions

ACCELERATION SERVICES IN SUPPORT OF THE INSTITUTIONAL TRANSFORMATION OF HEIS 1

SCOPE

- Acceleration services should address all possible R&I areas of the Higher Education Transformation Agenda such as
 - empower HEIs towards developing shared R&I strategies that deliver on Europe's challenges with critical mass
 - facilitate the sharing of capacity, infrastructure and resources through collaborative settings, such as the European Universities initiative
 - improve the attractiveness of researchers' careers, including through reform of the career assessment and incentives regimes
 - support the transition to knowledge and digitally-driven HEIs that mainstream Open Science practices and include research and innovation outputs in teaching
 - engage citizens in solving societal challenges
 - support institutional change through inclusive gender equality plans
- progress of the users in the implementation of the chosen areas of the transformation agenda should be measured

ACCELERATION SERVICES IN SUPPORT OF THE INSTITUTIONAL TRANSFORMATION OF HEIS 2

EXPECTED OUTCOMES

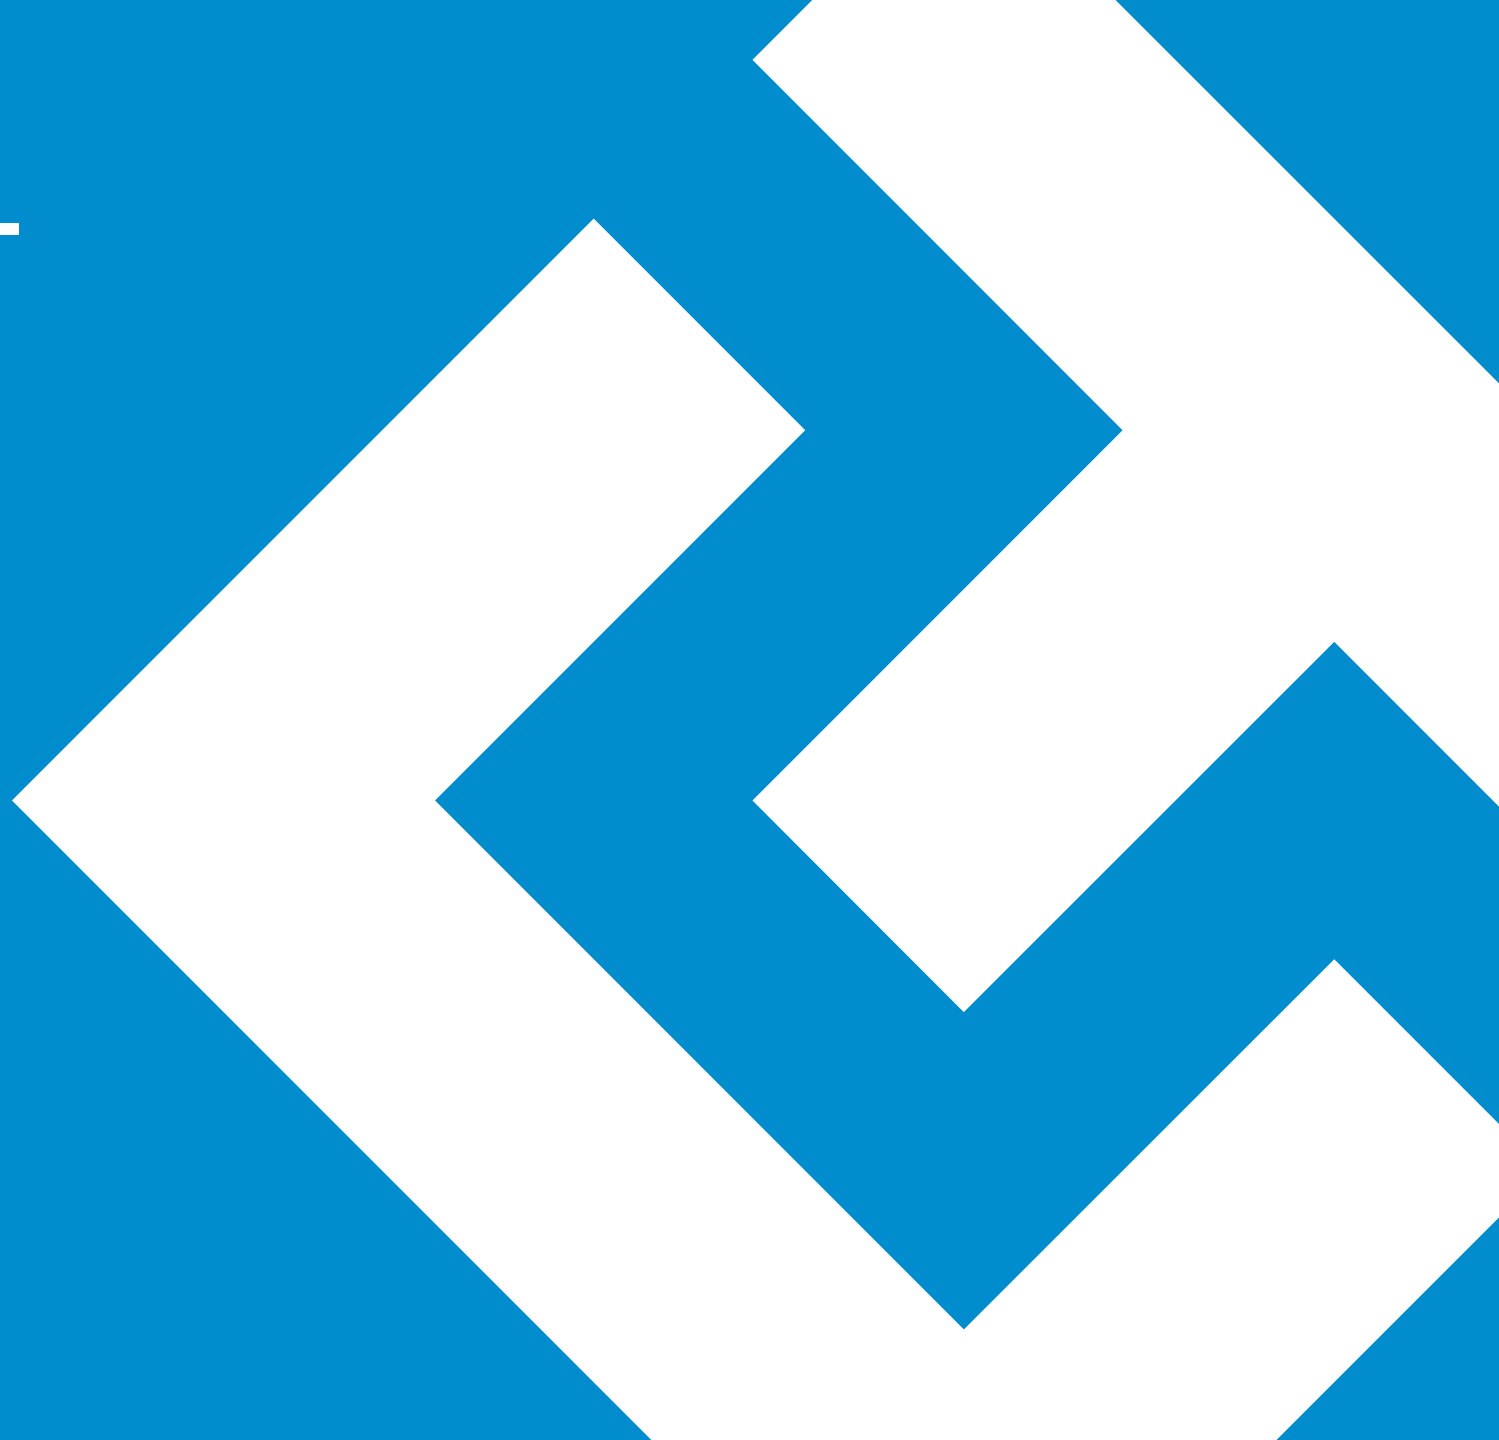

- A methodology towards acceleration services, including a monitoring mechanism to assess quality of the delivered services
- A coaching service with best practice examples and guidance, facilitating access to finance from various sources
- Tested acceleration services with user groups supporting HEI or networks of HEIs in developing a strategy to pursue institutional transformations in the field of R&I
- Investment strategy mechanism facilitating access to funding from national/regional/EU resources to deliver on the HE Transformation Agenda

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-51
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 10.5
- Budget per project: M€ 2,5 – 3,5
- Project duration: 5 years
- Consortium: min. 1 + 2
- Expected no. of projects: 3

HORIZON-WIDERA- 2022-ERA-01-60

—
European competence
centre for science
communication

EUROPEAN COMPETENCE CENTRE FOR SCIENCE COMMUNICATION 1

SCOPE

- This action has two parts, both of which must be addressed:
 1. Consolidating the evidence base on science communication from ongoing and past projects and initiatives, covering a wide range of areas; paying attention to contextual issues (geography, gender, age, socio-economic status, etc.) that affect the uptake or effectiveness of science communication; develop policy reports and recommendations, guidelines, and innovative strategies; publish one or more user-friendly handbook(s) for effective science communication
 2. Establishing a centre of knowledge, expertise, advice, resources, and tools on science communication in the ERA; prepare the ERA to react quickly to situations requiring science communication, and the ability to provide rapid advice and support; work towards the sustainability beyond the lifetime of funding, including through the provision of a basket of services and other activities that have market value; a business plan should therefore be elaborated from the very earliest stages of the project

EUROPEAN COMPETENCE CENTRE FOR SCIENCE COMMUNICATION 2

EXPECTED OUTCOMES

- Consolidation of knowledge and development of guidelines, tools, innovative strategies, and recommendations to improve science communication for all R&I actors
- Establishment of a European competence centre for science communication
- Increased networking and mutual learning, more rapidly mobilised science communication by national authorities, businesses, civil society organisations, other stakeholders and projects

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-60
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 3
- Project duration: 4 years
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-70

—
Open schooling for science
education and a learning
continuum for all

OPEN SCHOOLING FOR SCIENCE EDUCATION AND A LEARNING CONTINUUM FOR ALL 1

SCOPE

- Europe faces a shortfall in science-knowledgeable people at all levels of society at a time when it needs ever more scientists and a science literate society
- Increase the uptake of science careers to feed the talent pipeline, and to improve science literacy in our adult population and support a learning continuum for all
- Support a range of activities based on collaboration at local level between formal, non-formal and informal science education providers, enterprises and civil society in order to integrate the concept of open schooling, including all educational levels, in science education
- Support students, teachers, parents and the wider community to improve access to and provide everyone with the opportunities to pursue excellence in learning and learning outcomes

OPEN SCHOOLING FOR SCIENCE EDUCATION AND A LEARNING CONTINUUM FOR ALL 2

EXPECTED OUTCOMES

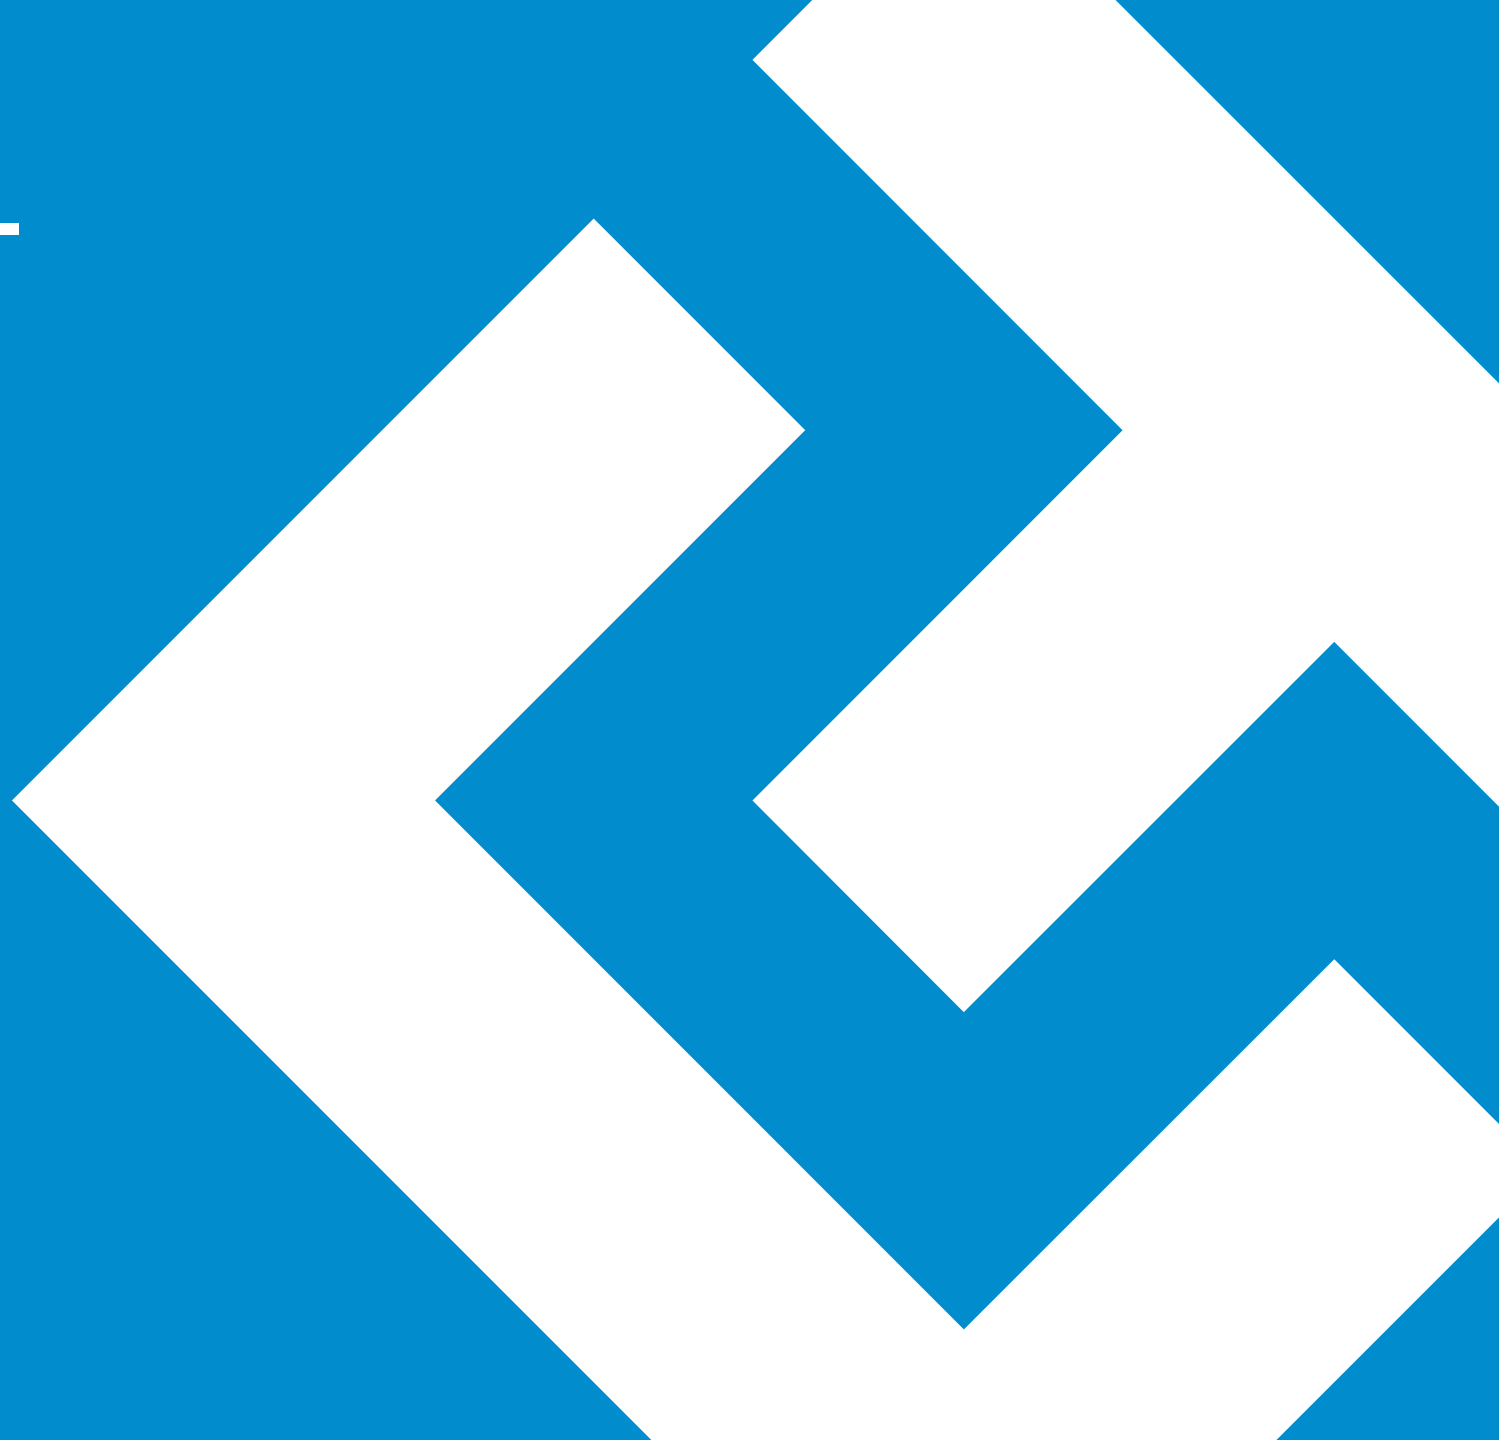

- Partnerships on networking, sharing and applying science and technology research findings
- Engage learners in meaningful real-life problem-solving situations
- Encourage science studies and careers by supporting cross-community networks
- Increase female participation in science studies and science careers
- Foster, share and apply science and innovation research to different genres of enterprises and to become part of lifelong learning
- Encourage mentoring across the different groups involved in the partnerships

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-70
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 5,5
- Budget per project: M€ 1,5 - 2
- Project duration: not specified
- Consortium: min. 1 + 2
- Expected no. of projects: 3

HORIZON-WIDERA- 2022-ERA-01-80

—
Living Lab for gender-
responsive innovation

LIVING LAB FOR GENDER-RESPONSIVE INNOVATION 1

SCOPE

- Establish a sustainable learning and collaboration hub between various innovation ecosystem actors, including, e.g., women innovators, social innovators, education institutions, science and technology museums, foundations, start-ups and larger companies, as well as social science researchers and gender scholars from a variety of scientific disciplines
- Develop real-life action research with above-mentioned stakeholders, based on the co-development and testing of user-centred and open and social innovation processes promoting gender equal participation, as well as integrating the gender dimension into their contents, with an opening to intersectional approaches considering social categories intersecting with gender such as ethnicity, disability, sexual orientation or else social origin
- A special focus should be placed on information technology and AI-related fields and Commission priorities such as the European Green Deal and the preparedness and response to future pandemics

LIVING LAB FOR GENDER-RESPONSIVE INNOVATION 2

EXPECTED OUTCOMES

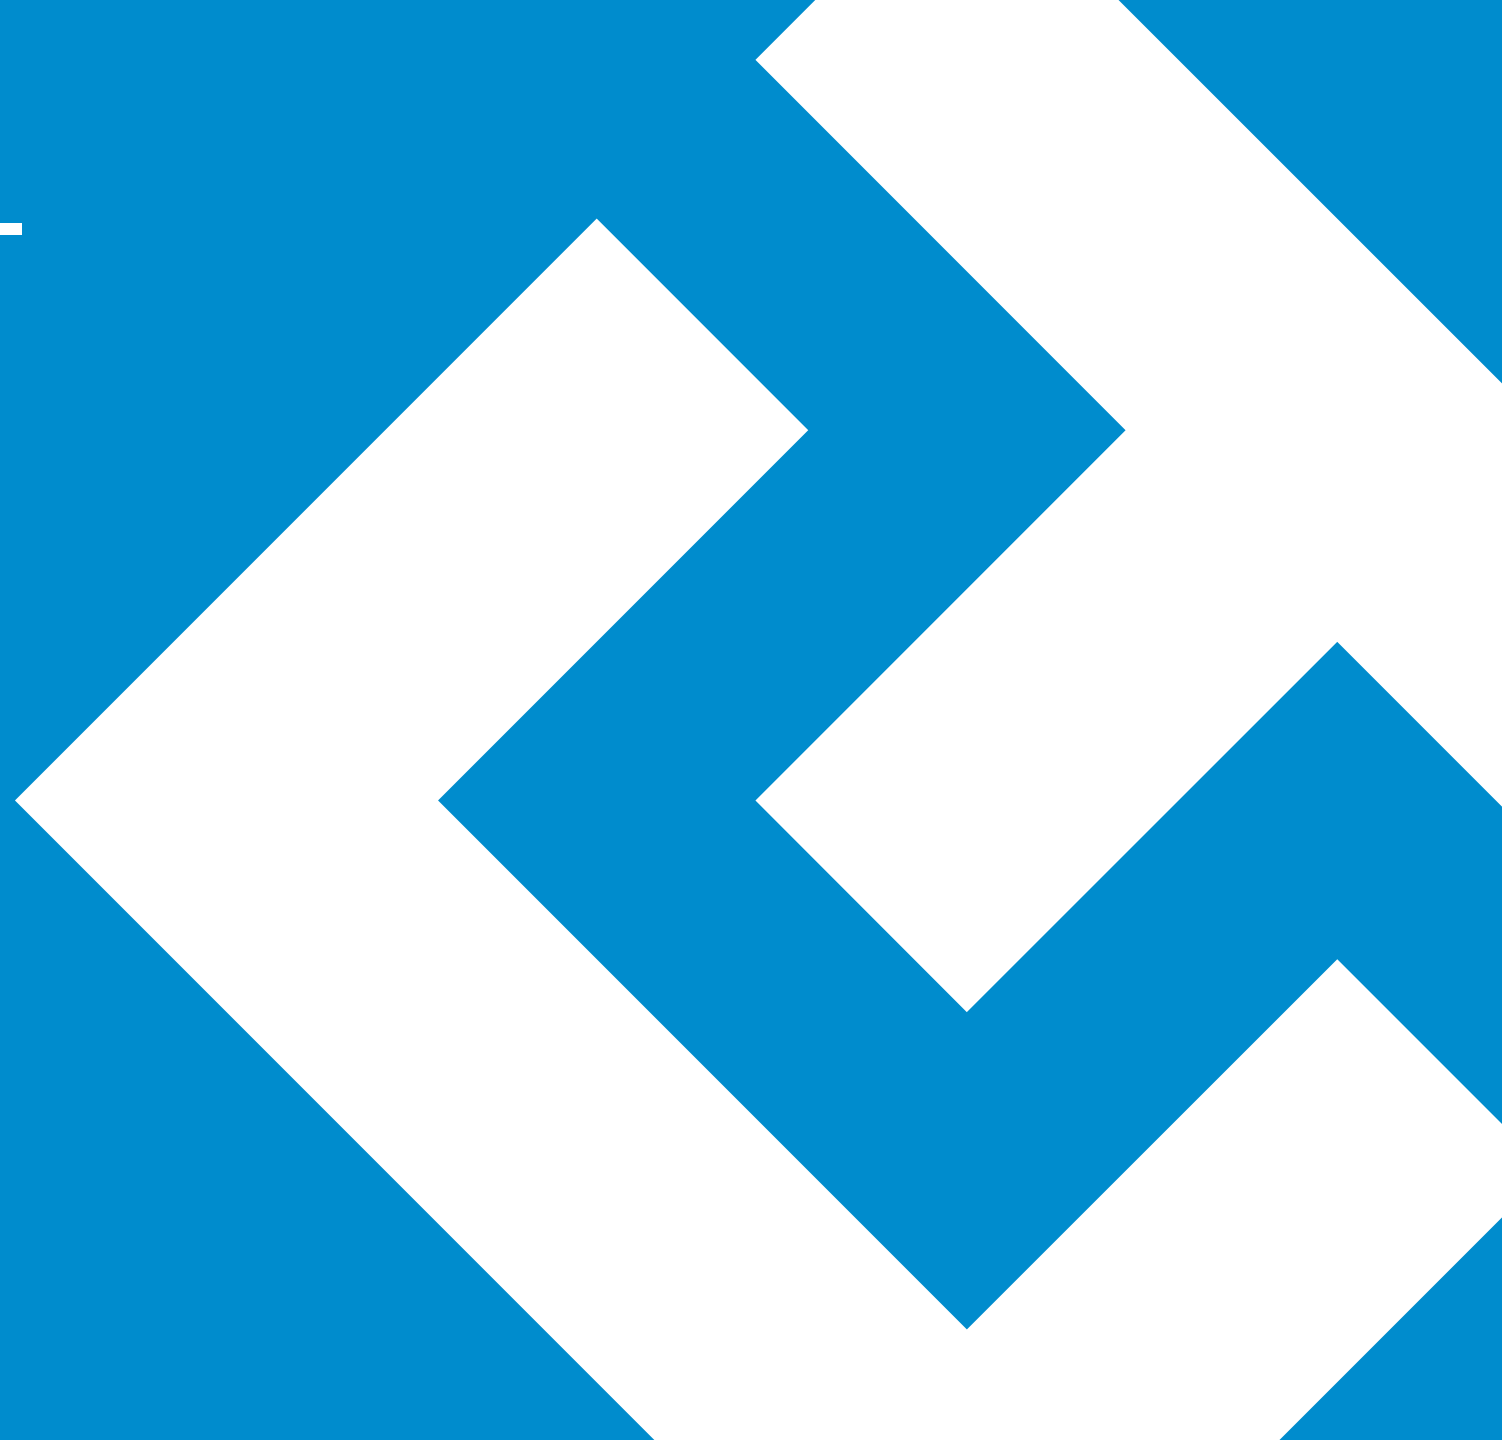

- Advancement of knowledge and practice on gender-responsive innovation in Europe
- Strengthening of the innovation and inclusiveness dimensions of the European Research Area
- Propose of new concrete methods and solutions for the development of gender-responsive innovation in Europe

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-80
- 19 January 2022 - 20 April 2022
- Type: RIA
- Overall indicative budget: M€ 3
- Budget per project: M€ 3
- Project duration: not specified
- Consortium: min. 1 + 2
- Expected no. of projects: 1

HORIZON-WIDERA- 2022-ERA-01-81

—
Support to the
implementation of
inclusive gender
equality plans

SUPPORT TO THE IMPLEMENTATION OF INCLUSIVE GEPS 1

SCOPE

- Methods for exchanging and implementing good practices and materials, tailored to individual organisations' needs for the development of inclusive GEPS
- Support for reinforcing their networking in the area of gender equality and inclusiveness, especially with already existing Communities of Practice
- Activities such as on-site visits, on-site or virtual training; workshops; dissemination and outreach and capacity building activities
- Implementation of specific actions in the less advanced institutions specifically addressing the opening to intersectionality and diversity, including in the integration of intersectional sex and gender analysis into R&I content

SUPPORT TO THE IMPLEMENTATION OF INCLUSIVE GEPS 2

EXPECTED OUTCOMES

- Enhance the reputation, attractiveness, inclusiveness and research excellence of less advanced institutions as a result of implementing inclusive Gender Equality Plans (GEPs)
- Transform institutions to advance inclusive gender equality within the ERA
- Methods for exchanging and implementing good practices and materials, tailored to individual organisations' needs for the development of inclusive GEPs

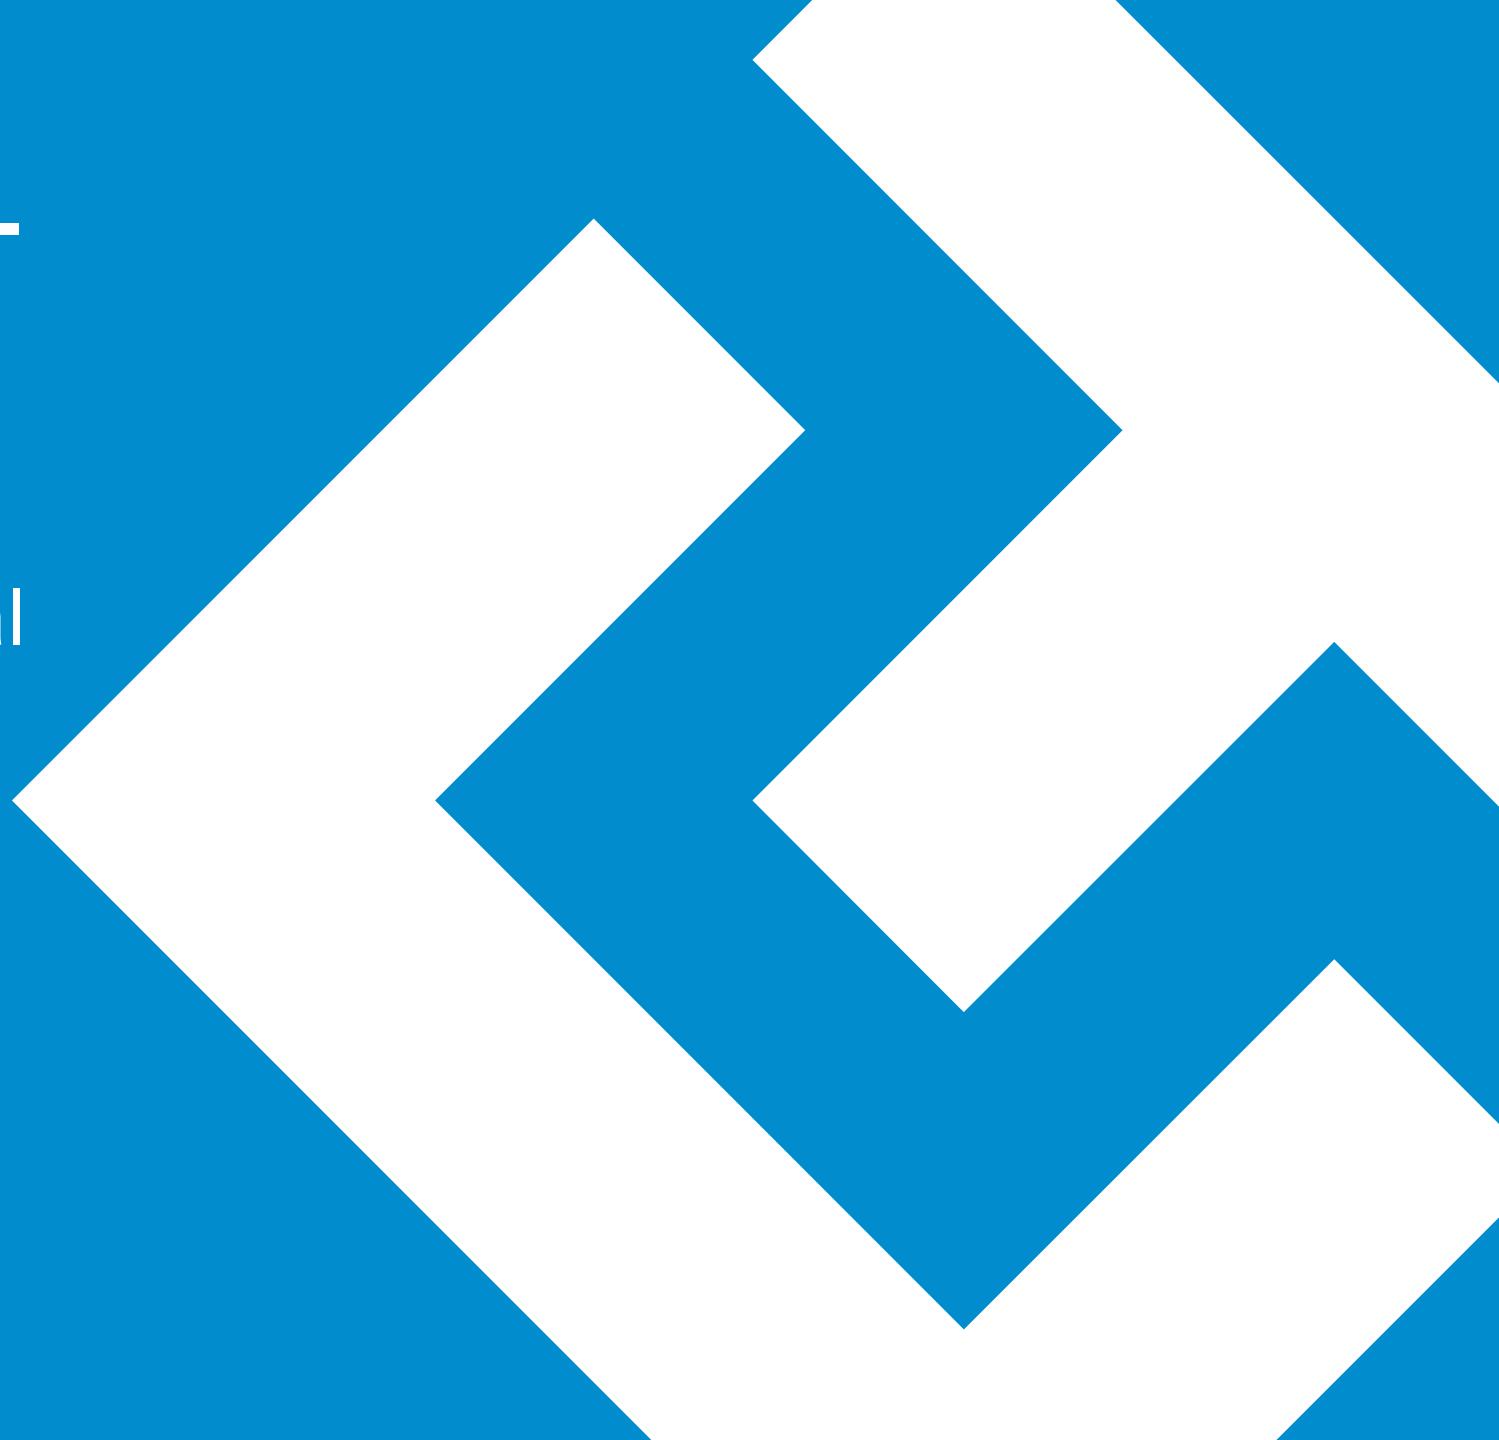

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-81
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 0,5 – 1
- Project duration: not specified
- Consortium: min. 1 + 3 (At least 1 leading university or research organisation in GE and at least 3 less advanced institutions from Widening MS or Associated Countries)
- Expected no. of projects: 4

HORIZON-WIDERA- 2022-ERA-01-91

—

Empirical and behavioural
approach to research
ethics and integrity

EMPIRICAL AND BEHAVIOURAL APPROACH TO RESEARCH ETHICS AND INTEGRITY 1

SCOPE

- Explore in depth the behavioural and organizational factors that may engage researchers in questionable practices and misconduct
- Improve the understanding of researchers' behaviours and incorporate this knowledge in measures aiming at enhancing promotion of ethics and integrity principles through shared responsibility (individual and institutional)
- Improve education and training processes and qualified mentoring and support
- Pay particular attention to issues related to the mental health and wellbeing of researchers, especially for those employed in uncertain work conditions (short-term contracts, early career researchers, students, etc.)
- International cooperation is strongly advised, in particular with countries which have concluded an international agreement on S&T with the EU (participants from countries not eligible for funding, may take part as associated partners)

EMPIRICAL AND BEHAVIOURAL APPROACH TO RESEARCH ETHICS AND INTEGRITY 2

EXPECTED OUTCOMES

- Specific course material to enhance and supplement current efforts on research ethics and integrity
- Guidelines to facilitate adoption of the gained knowledge in host institutions - as a supplement to existing Standard Operating procedures
- Methodologies for measuring the short-, medium- and long-term impact of ethics and integrity trainings
- Best practice manual, based on case studies
- Output material must be made available on the e-platform Embassy of Good Science

OVERVIEW

- HORIZON-WIDERA-2022--ERA-01-91
- 19 January 2022 - 20 April 2022
- Type: CSA
- Overall indicative budget: M€ 3
- Budget per project: M€ 3
- Project duration: not specified
- Consortium: min. 1 + 2
- Structured cooperation with the e-platform Embassy of Good Science and the European Networks ENERI and ENRIO must be included
- Expected no. of projects: 1

CZ-SK INFODAY ON ERA CALLS

- When: 15. 6. 2021
- Where: online
- Aim: introduce the ERA part calls 2021
- PDF presentations and videos (presentations with spoken commentary) on the [web](#)

EC INFODAY ON WIDERA 21-22

- When: 9. 7. 2021
- Where: online
- General introduction followed by parallel sessions on Widening and ERA
- Video recordings on the [web](#)

INFOGRAPHICS ON ERA

PUBLIC ENGAGEMENT

SPARKS Toolkit of Activities

- Innovative formats of activities for interaction between citizens and researchers ([SPARKS project](#))

Engage2020 Action Catalogue

- online support tool enabling researchers, policy-makers and others wanting to conduct inclusive research ([Engage2020 project](#)) - 57 different methods on 32 different criteria
