

**FoodSafety4EU**

MULTI-STAKEHOLDER PLATFORM  
FOR FOOD SAFETY IN EUROPE

# FoodSafety4EU

**Multi-stakeholder platform for food safety in Europe**

---

**OUR GOAL**

develop a **platform** of  
Food Safety System actors  
and activate a structured  
**participatory process**  
to make effective  
their cooperation  
thus providing  
**digital knowledge and tools,**  
**and competences** as a  
**«service»**  
**for EC and EFSA**

**FoodSafety4EU**

MULTI-STAKEHOLDER PLATFORM  
FOR FOOD SAFETY IN EUROPE

Funding scheme: H2020 Coordination and support  
action - **A policy driven call**

Budget: 3M euro

Duration: 3 years – from 1.01.2021 – 31.12.2023

Grant Agreement No. 101000613

Coordinated by CNR - ISPA

23 beneficiaries

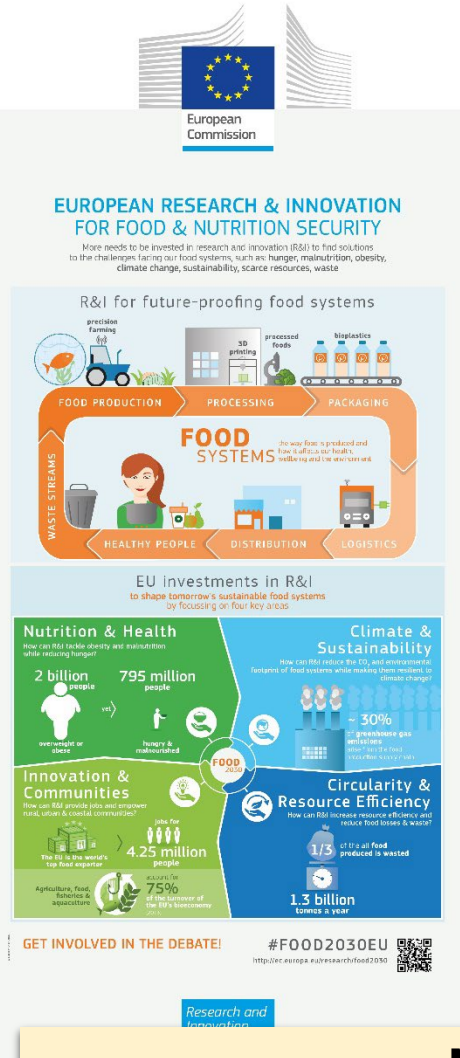

50+ supporting partners

**Ambition: to become a Knowledge/Competence Centre for Food Safety in Europe  
supporting the transformation towards a SAFE and SUSTAINABLE food system**

# Key needs for transition

FoodSafety4EU

Challenge: transforming the food system SAFELY towards increased sustainability

- Collaboration
- Cooperation
- Alignment

## Addressing complexity

- Societal Challenges
- Systemic approach

- New technologies
- Data management - interoperability
- Transparency

## Funding

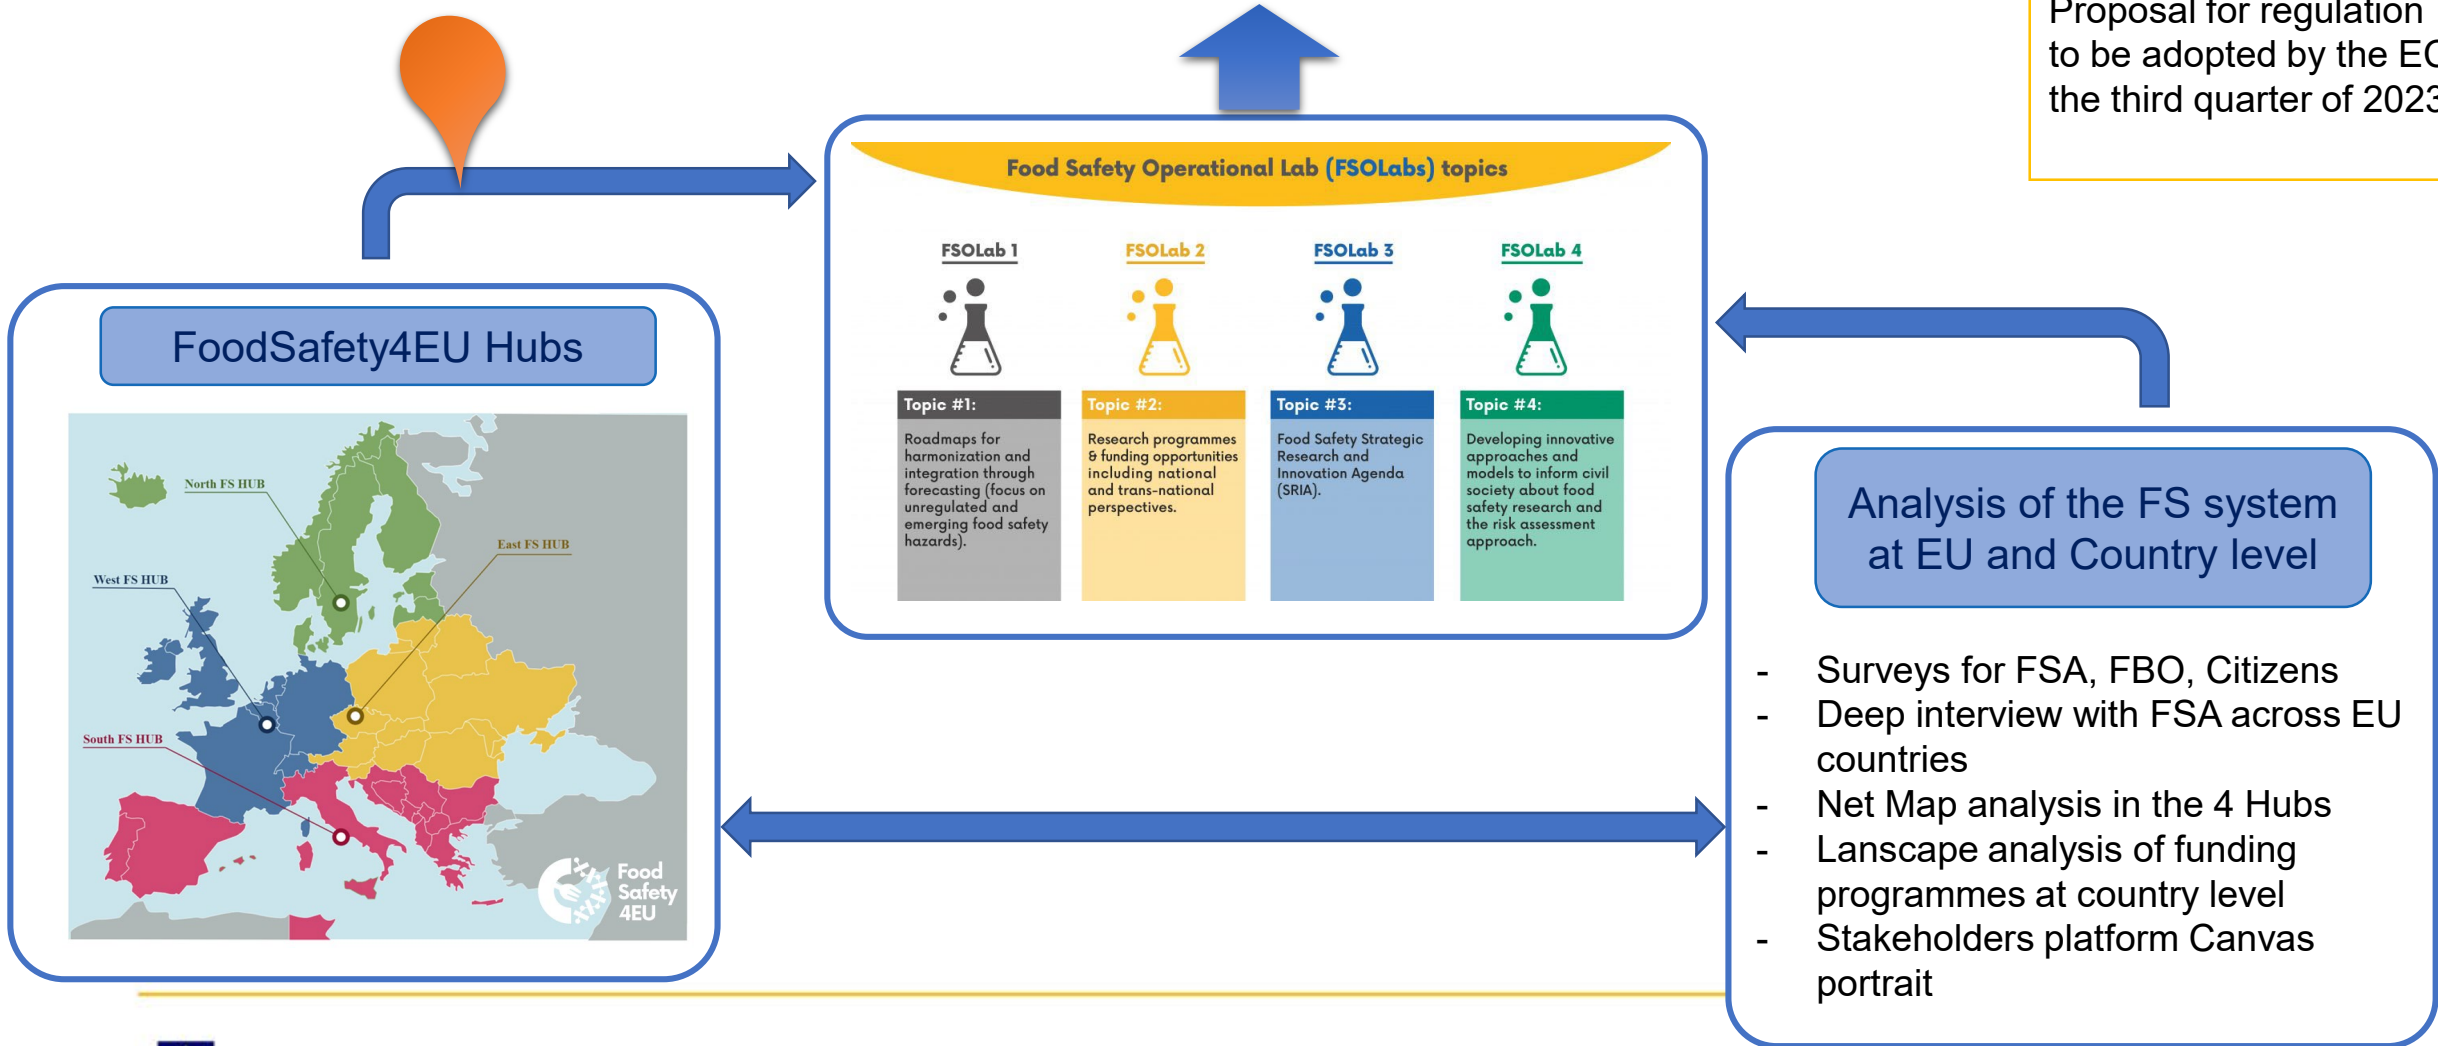

## Consumer trust

**Multi-stakeholder digital platforms** are asked to act as **large cooperation spaces**, where Food System actors (i.e. policymakers, scientists, enterprises, civil society – up to individual consumer level) can **co-design and pilot** solutions, strategies, and models, **aligning their vision** towards common objectives

# How Food Safety4EU will provide input for future research needs?

FS4EU Strategic Research & Innovation Agenda (Dec 2023)

**EC Initiative: Sustainable food systems**  
Proposal for regulation to be adopted by the EC in the third quarter of 2023

The goal of the EU FOOD SAFETY FORUM is to support the transition towards safe and sustainable food systems.

The EU FOOD SAFETY FORUM is being built by contributions of experts involved in our FSOLABs co-creation process.

## WHAT IS A FSOLAB?

### RISK ANALYSIS

Roadmaps for harmonization and integration through forecasting (focus on unregulated and emerging food safety hazards).

### RESEARCH PROGRAMMES AND FUNDING

Research programmes & funding opportunities including national and trans-national perspectives.

### SRIA

Food Safety Strategic Research and Innovation Agenda (SRIA).

### COMMUNICATION METHODS

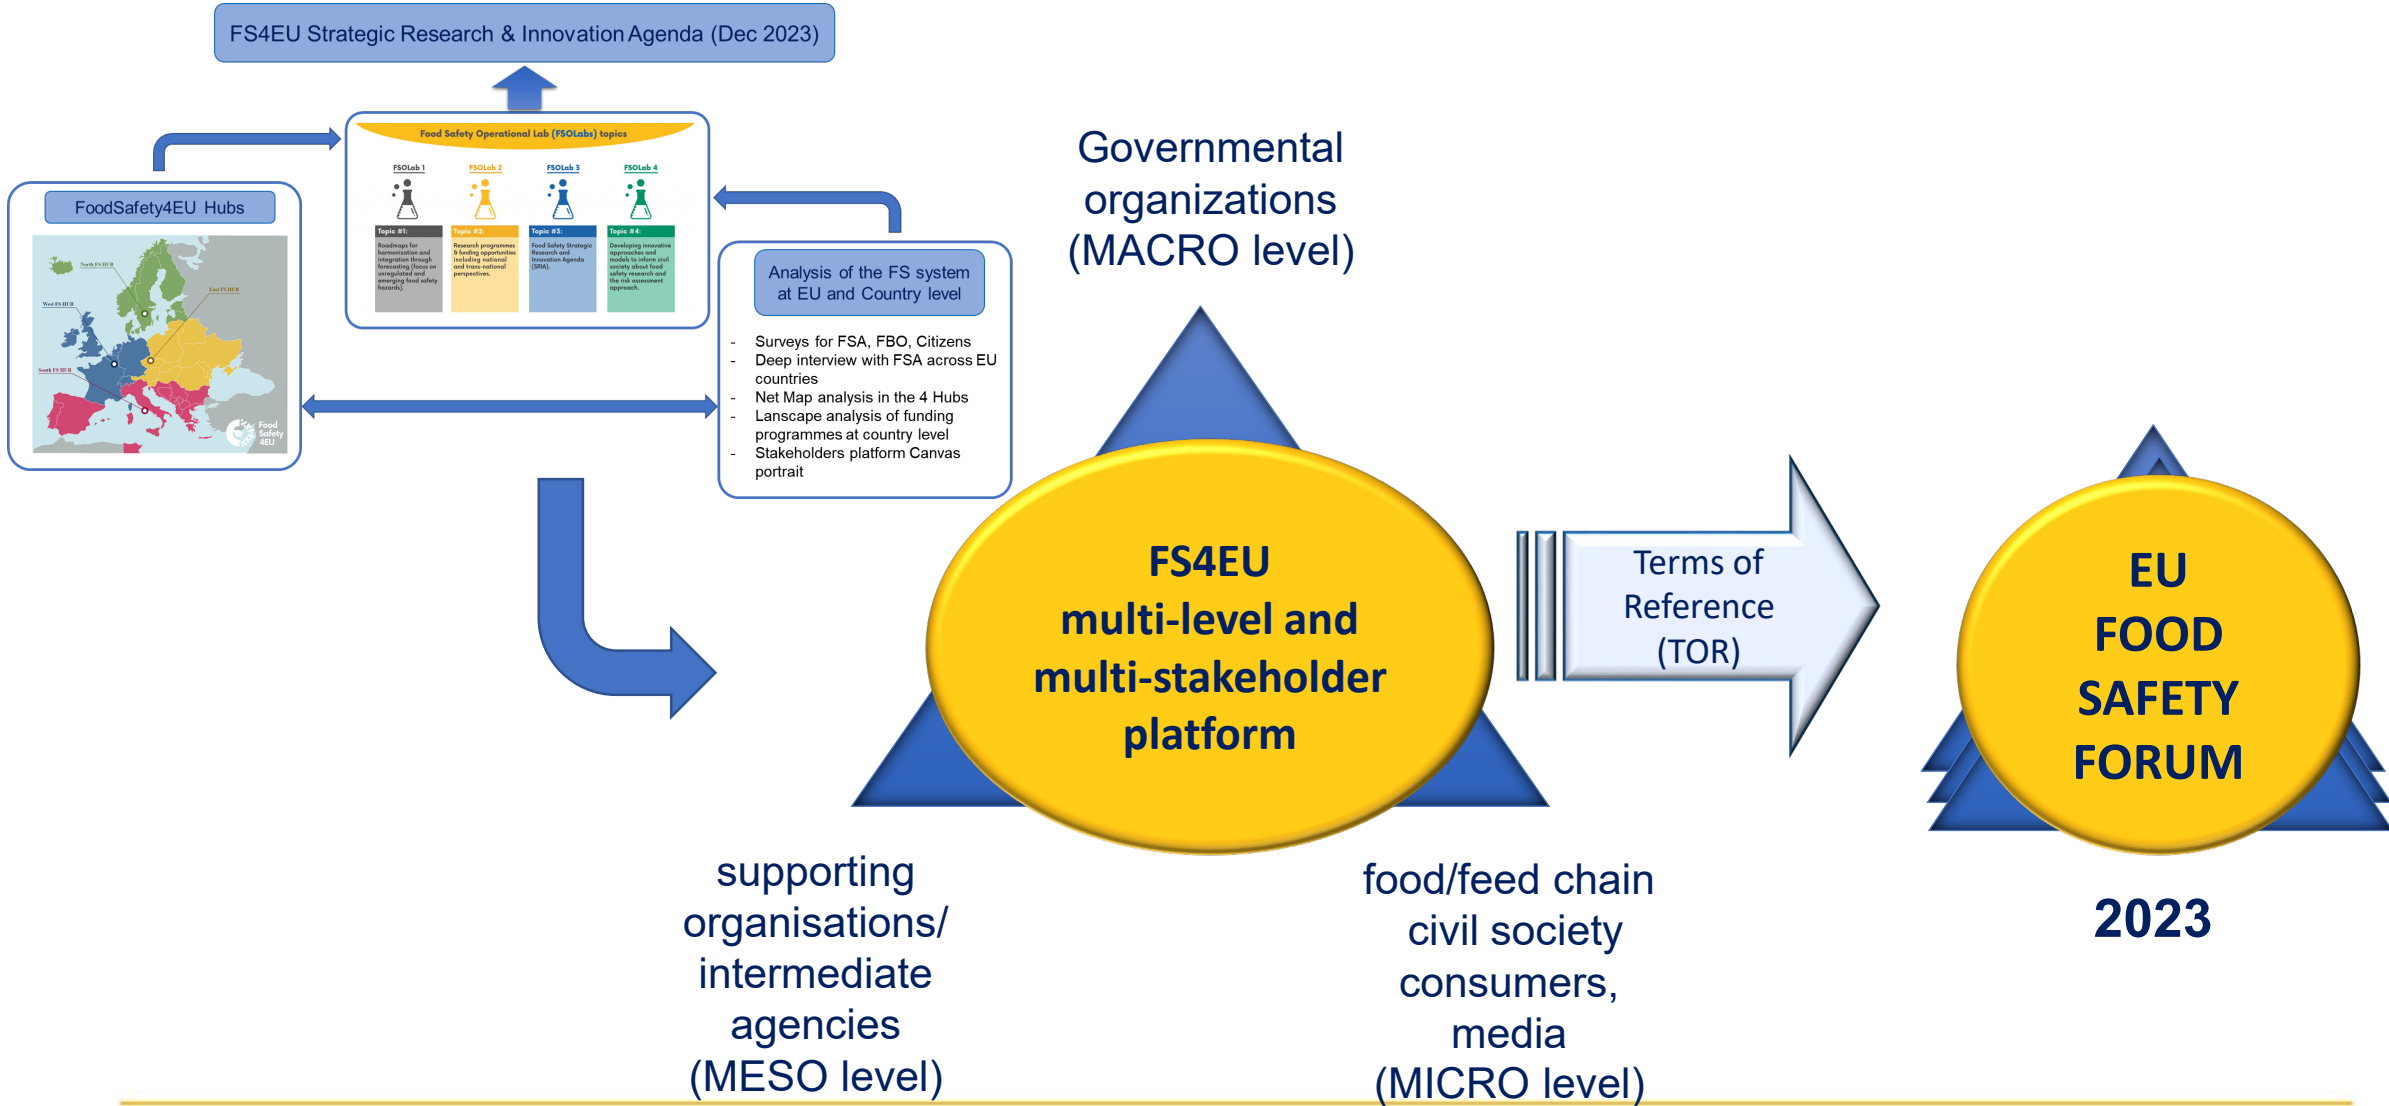

Developing innovative approaches and models to inform civil society about food safety research and the risk assessment approach.

## ENHANCED COLLABORATION

*The platform offered **social experimental rooms** - named FSOLabs (Food Safety Operational Labs) - that can be joined to experience new ways of collaboration and feed the dialogue within the system.*

## FOOD SAFETY SYSTEM OF THE FUTURE

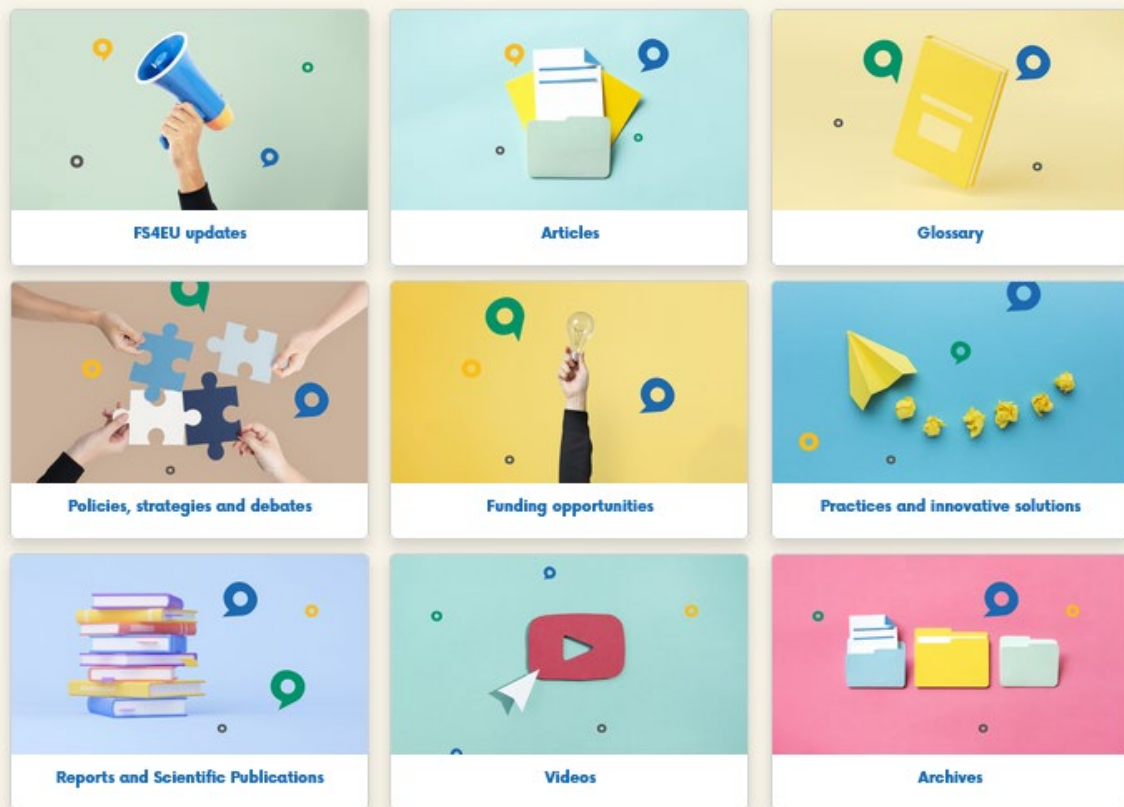

Multi-stakeholder Platform for  
Food Safety in Europe

ARTICLES

Mostra desktop

## KNOWLEDGE CENTER

Find out more on FS4EU HubHub open workspaces!

## SCIENCE COMMUNICATION

The platform offers a digital **Knowledge Centre on Food Safety** where to easily access updated knowledge and resources, including strategies, innovative practices, and articles.

## EDUCATION, TRAINING AND COMMUNICATION

The platform offers **materials** and **toolkits** for communication, education and training, and shares knowledge and innovation on multi-stakeholders events and through its social media channels

## Surveys

The FoodSafety4EU partners are exploring the routes of Food Safety in Europe to update knowledge, information and discover how to improve it for the future!

### NEW SURVEY 2023!

The survey on **RISK ASSESSMENT** and management status of current and emerging food safety issues, focusing on **MYCOTOXINS** and **FOOD CONTACT MATERIALS** is ongoing!

Fill it out here by clicking on your country bottom below!

## CONTINUOUS MONITORING AND FEEDBACK

*The platform offers **spaces for consultations** and for collecting input from its network through participatory process tools, experimented by experts and food business operators in the FoodSafety4EU project.*

# DIGITAL TOOLS

Network and resources for food safety

## EXPERT FINDER APP

The app is available for experts in the food safety domain who would like to enhance networking, exchange of knowledge, connect with peers and enter into a high-level community of experts. The FS4EU Expert Finder app helps institutions, EU and national Agencies, Food Safety Authorities, industry, SMEs and associations to easily find experts in the wide panorama of food safety. The FS4EU team warmly encourage professionals to register and highlight their experiences, projects and main reports/publications that can help the Food Safety System of the future to be more inclusive and connected..

[Open now](#)

## STAKEHOLDER ENGAGEMENT

*The platform offers **digital tools for connecting people** with various backgrounds. It hosts **spaces for stakeholders'** contributions and participation, keeping updated the network in the Food Safety System.*
