Title:

Sound absorbing material with nanofibrous resonant membrane

POD Reference:

TOCZ20190409001

Summary:

A Czech university has developed a sound absorbing panel with nanofibrous membrane for applications in room acoustic, transportation and noise control. The sound absorbing material solves noise problem of wide frequency spectrum and is lighter and thinner than others. The scientists are looking for partners interested in further research and development based on a technical cooperation agreement and for companies interested in production under a license agreement.

Description:

Sound absorbing material solves noise problem of wide frequency spectrum.

The Czech researchers offer different types of acoustic panels with nanofibrous membrane for demonstration and evaluation in the laboratory and in-situ having size 500 x 600 mm. The final panel size is dependent on application, production and manipulation conditions. The nanofibrous resonant membrane can be made in 500 mm width in a semi-industrial scale and in 1600 mm width in an industrial scale. The nanofibrous layer is produced in the Czech Republic.

The sample contains for example foam of 10 mm thickness with resonant nanofibrous membrane protected by the thin nonwoven of 20–30 g.m-2 basis weight on the face of the sample.

The sample contains for example perforated panel of 1 mm thickness with resonant nanofibrous membrane protected by the thin nonwoven of 20–30 g.m-2 basis weight on the back of the sample.

The installation distance between wall and sample of 1 mm thickness is effective from 10 mm to 50 mm. The distance can be utilized for light or sound source installation.

The researchers expected in the case of a licensing agreement acquiring a license from the interested partner, where the subject of a license will be know-how for manufacturing the resonant nanofibrous membrane.

Additionally, a joint further research and development or adaptation of the material offered for the specific purposes based on a technical cooperation agreement (e.g. also within a suitable European ...)

Attend Networking Events & Trade Fairs: B2B Matchmaking

- Pre-arranged meetings (20 - 30 min.) at selected trade fairs and conferences; (Some for free or with a participation fee)
- They significantly increase the efficiency of visits to these events
- Suitable for establishing potential contacts and market research; Opportunity to find partners for research projects
- Free access to the calendar of Network events via the website www.een.cz
- Registration and publication of basic information (profile - offer, request) is necessary

Technology & Business Cooperation Days 2021

In response to the Corona pandemic, the Technology & Business Cooperation Days will be organised as a pure online matchmaking event.

This means that all bilateral meetings organised within the framework of the event will be held as online meetings/video-conferences via this website.

You do not need any additional software, only an up-to-date web browser, a microphone and a webcam.

Together with our event partners and the partners from the Enterprise Europe Network, we will continue working on this event and the website to help you establish new international business contacts and find partners for upcoming European projects.

Focus

- Industry 4.0 and Smart Factory solutions
- Resource and energy efficient manufacturing technologies
- Sustainable Energy & Mobility
- Measurement Tools

The registration for the "virtual/online" Technology & Business Cooperation Days is free of costs. Pending meeting requests can be confirmed or declined until 5th April 2021.

Take your chance to innovate! Gain new opportunities and competitive advantages through R&D and technological as well as business co-operations.

Innovation support by TC CAS

- ✓ Partnering and international collaboration
- ✓ Access to Finance (National and European grants, VC funds)
- ✓ Innovation Management Assessment in SMEs
- ✓ „Scaling-up“ – support of growth oriented young SMEs
- ✓ KAM services for EIC Accelerator beneficiaries
- ✓ IPR advisory
- ✓ Space sector: ESA TT Broker
- ✓ ILO for large infrastructures: ESO, ESS, CERN and SÚJV Dubna
- ✓ Business Runway – acceleration program of TC CAS

Access to finance

- Understand the different sources of financing
- Identify the most relevant funding source for your innovation driven projects
- Develop your innovative ideas from concept to market – support of SMEs that prepare for EIC programmes in the form of mentoring
- Identify partners for your R&D projects – help you find a partner to join a consortium for a research project under a specific call to be funded by the EU

Access to Finance

Research & Innovations

HORIZONT 2020/Europe, EUREKA, Eurostars, Cascade Funding

Programs of the Technology Agency of Czech republic (Delta, Gama, Zéta, etc.)

Norway grants, Bilateral agreements on R&D collaboration

CORNET, IraSME etc.

Vouchers for innovative projects (provided by Regions, Municipalities)

COSME - Program for the competitiveness of Enterprises and SMEs

Operational Programs (OPEIC 2014 - 2020, Prague - Growth Pole), Programs of Ministry of Industry and Trade TREND, Country for the Future

Inostart (start-ups, up to 70% warranty)

Banking product for support of entrepreneurship and innovations

Venture Capital, Business Angels

Financial instruments (EIC Accelerator Blended Funding; COSME - warranty)

Crossborder collaboration CZ vs. Slovakia, Saxony, Bavaria, Austria, Poland

Central Europe and Danube Region Strategy

Visegrad Fund, CEE Initiatives

EuropeAid: EU and Czech International Cooperation and Development

Support of Entrepreneurship

Collaboration

Innovation Management Assessment in 3 Steps

- 1) Interview with EEN business mentors
- 2) Report - Independent view on company's business

Need analysis

- 1) Approval of the report
- 2) Roadmap - steps to improve capacities for innovation and competitiveness

Plan implementation

- 1) Summary of achievements
- 2) Further steps

Evaluation

Business Innovation – Boosting your Innovation Potential

Added Value:

- Identification of and opportunities for growth and competitiveness of SMEs
- The basis for updating the business strategy (incl. funding strategy)
- New impulses for company development

Our Experience:

- ✓ 100 + clients
- ✓ 250 + meetings
(CEO, company owners)
- ✓ Long term partnerships
- ✓ Business Mentoring

„Scale-up your business”

Mentoring programme of TC CAS

- Combination of education and in-depth tailor-made advisory services
 - ✓ A series of seminars/workshops with a coach
 - ✓ Presentation days (Expert Panel)
 - ✓ Personalized support (consultations, mentoring)
- Complementary EEN services (POD profiles, B2B matchmaking etc.)

Business Acceleration Services in HEU

Access to tailor-made advisory services and networking

- Access to advice (coaches, mentors, expertise and training)
- Access to business partners (leading corporates, investors, procurers, distributors, clients)
- Access to innovation ecosystem and peers (EIC Market Place and EIC Community platform)

Main points to take away

- Services designed for SME's but available to all businesses including start-ups, universities, industry clusters, etc.
- Supports (also) highly innovative and ambitious SMEs with global ambitions
- Does not fund any projects but assist in finding funding programmes and sources for finance, including private capital
- Unique in terms of geographical reach and expertise provided.
SERVICES ARE FREE OF CHARGE
