- ☒ I offer my expertise to participate as a Partner in a Horizon Europe Project
- ☒ I am planning to coordinate a project, and I am looking for Project Partners

TOPICS OF INTEREST

HORIZON-HLTH-2025-03-STAYHLTH-01: A-I-Touch to Support Persons with intellectual disabilities and their families

A-I-Touch will develop an agentic AI assistant designed for and with people with intellectual disabilities and their families, to augment care and support systems for individuals with intellectual disabilities and their caregivers. These AI "copilots" will serve as intelligent, personalized, and context-aware assistants that work collaboratively with caregivers, educators, therapists, and where possible people with intellectual disabilities themselves.

Description of the (Research) Team

HappySeniors is a multidisciplinary SME with deep expertise in healthcare, social services, and artificial intelligence. Our work bridges technology and human-centred care, creating effective tools for aging populations and underserved communities. We combine deep domain expertise in human services with advanced technical knowledge in AI, creating a powerful foundation for developing innovative solutions for the human services market. We understand both the complex ongoing needs of patients and their families, as well as the professionals serving them.

Expertise of the Team Leader

Avidor Rabinovitch is an Electrical Engineer from the Technion with an MBA from the University of Haifa. He has successfully led product innovation and accelerated growth for multiple companies. He has worked with various startups and in senior positions, including founder and CTO in ventures like NovoDia and Tensor Labs, where he led the development of AI-based products and large language models (LLMs), focusing on technological and product strategy.

Potential role in the project☒ Research☐ Training☒ Dissemination☒ Other: *Requiring coordinator, demonstration sites (medical/social institutions), and NGOs*
