GREENET is the international network of National Contact Points (NCPs) for Cluster 5 "Climate, Energy and Mobility", supporting research and innovation activities for the Horizon Europe Framework Programme. This online workshop is a great opportunity for newcomers and participants from Widening countries, to be informed about the funding opportunities offered by the HE CL5 work programmes in Mobility and Batteries sectors, and to follow useful presentations about the services offered by NCP networks. Participants will also have the opportunity to learn more about funding activities in relation to the mobility area and receive useful tips to prepare a successful proposal for CL5 calls.
