Verification and Analysis for Safety and Security of
Applications in Life

**Funded by
the European Union**

This project is funded under Horizon Europe Framework, Grant Agreement no 101160022

Motivation & Goals

BUILDING EXCELLENCE

- Institution
- Administration
- Research

SCIENTIFIC SCOPE

EXPECTED OUTCOMES

- Enhanced Capacities & Competencies
- Access to Knowledge
- Reputation & Visibility

Consortium

1

Needs Analysis

What are the gaps in expertise and capacity?

2

Mapping Ecosystem

Potential partners

3

Fit for Goals

Complementary strengths & track record

4

Implementation Capacity

Training, hosting, mentoring & supervision

5

Full Commitment

LoIs, time commitment & visibility

RESULT

TU Wien (AT)

Formal verification of excellence

CEA List (FR)

Industry & policy link

Honeywell (CZ)

Validation & use-cases

Partner Roles

Coordination & Widening

- Project management & governance
- Capacity building & cultivation talent
- Research and innovation
- Integration and Sustainability

Institutional and Methodological Excellence

- Formal verification of expertise
- Advanced training & PhD tracks
- Joint high-impact publications

Policy & Strategie

- Industrial liaison management
- Access to standardization forums
- EU policy & network introductions

Validation & Industry

- Data and validation
- Use-cases (aerospace)
- Requirements definition, Certification
- Industrial roadshows & demos

Theory ↔ Application

Academia
(BUT, TUW)

Industry
(Honeywell, CEA)

Validation of theoretical models in industrial environments accelerates TRL growth.

Widening ↔ Advanced

Competencies
Building capacity
and Scaling up

Excellence
Mentoring

Transfer of best practices and network access structurally strengthens BUT's position.

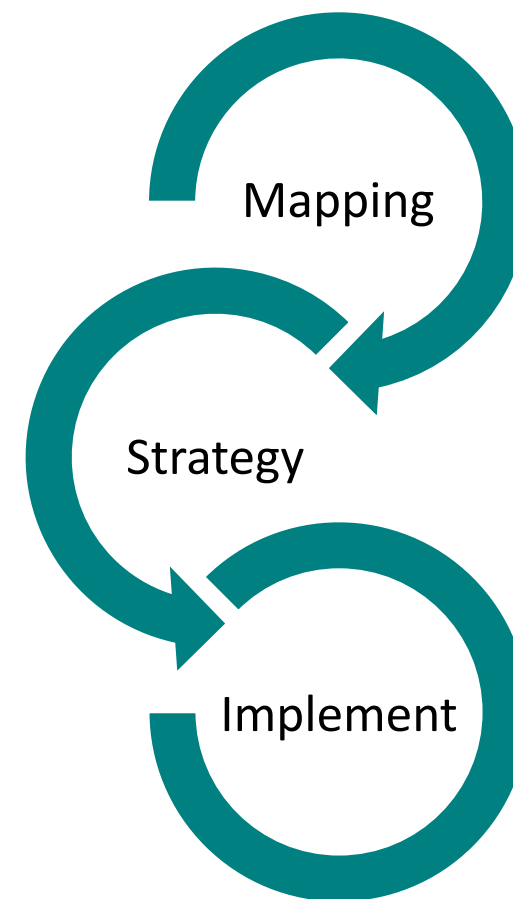

Network Effect

The combination provides direct access to **EU policymakers**, **standardisation committees** and **international R&I ecosystems**.

How to

Excellence and competence building

- Scientific
- Administrative (focus: R&I management / Pre-award)
- Strategic plans (Admin / Scientific)
- Best practices / frameworks
- Intensive training / workshops
- Mobilities / Mentoring / Coaching of students

Impact and expected results

Enhanced R&I Capacity

- Structural improvement of skills and governance at BUoT
- Professionalization of research support and project management

Scientific Excellence

- Joint publications in top-tier (CORE A*/A) conferences and journals -> greater int'l visibility

Funding

- Active participation in new EU consortia and taking leadership roles

Industry Uptake & Validation

- Move towards applied research -> Honeywell

Sustainability & Ecosystem

- Building a network, integration in ecosystem
- Contributing to policy and international standards

Specific OUTPUTS & KPI'S

- 20 KPIs (scientific, HR, training, mobilities, processes etc.)

Ultimate Goal

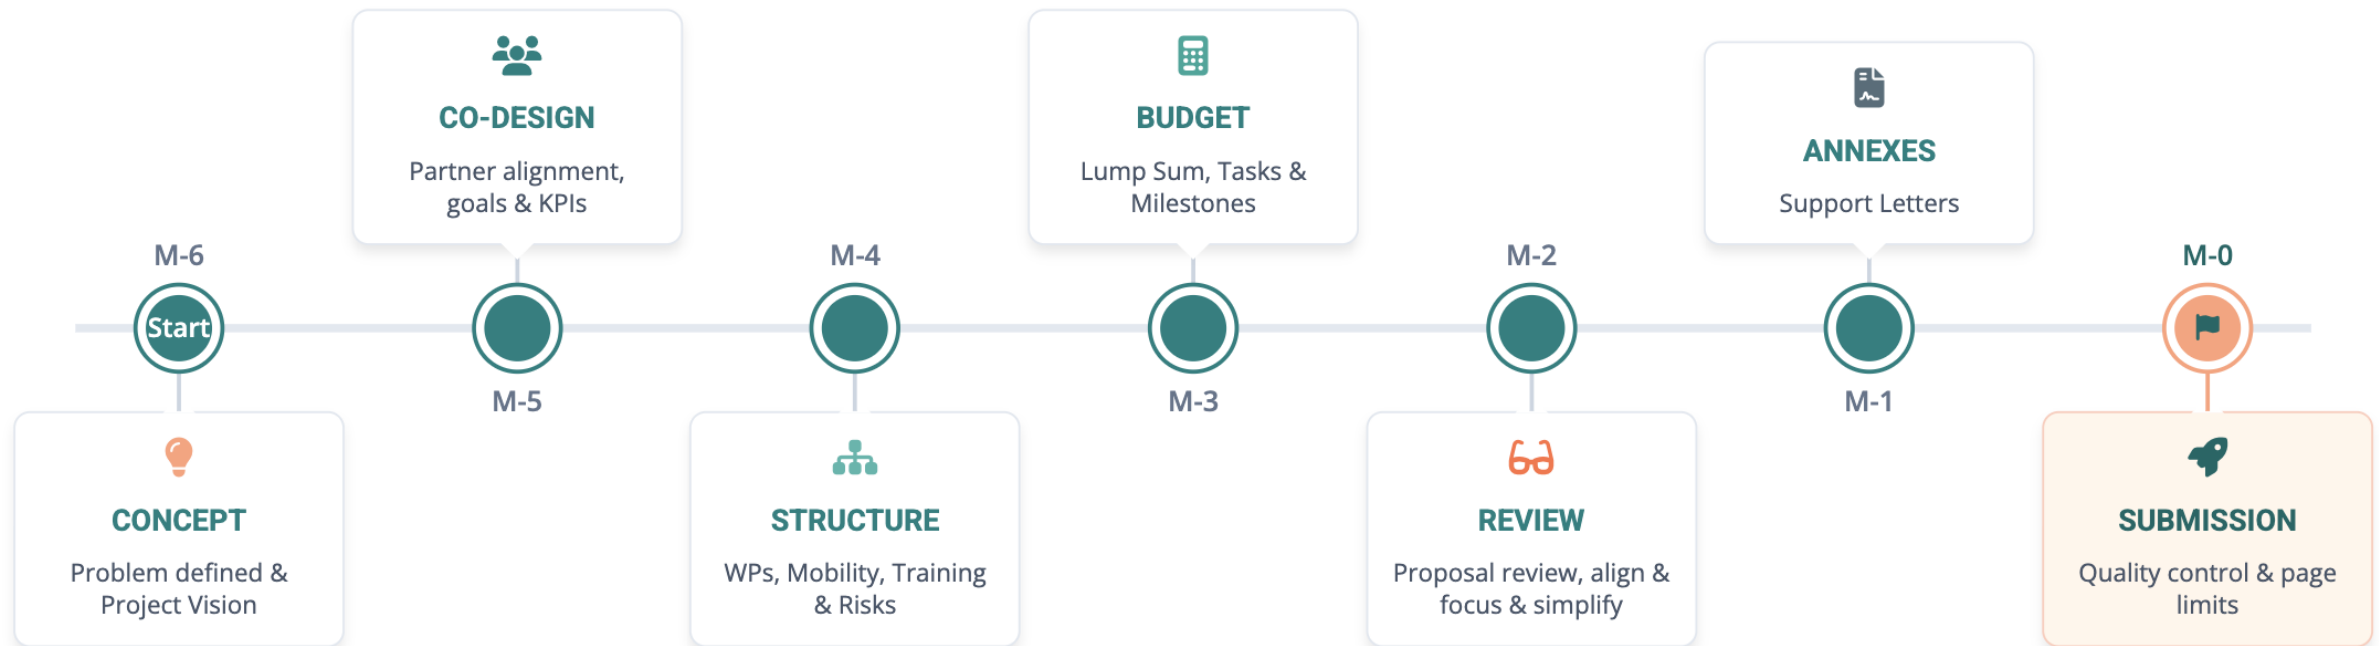

Positioning BUoT as an indispensable partner in the EU ecosystem for secure SW and critical systems

Lessons learned

Lessons learned: proposal development

- Communication, Communication, Communication
- Vision
- Partnership
- Complementarity
- Measurable goals achievable via specific activities
- Budget (Lump Sum)

Lessons learned: timing & writing

 *Success Factor: Start early with the Lump Sum budget and the mandatory annexes*

Lessons learned: implementation

Kick-off

Flexibility -> life is a change

- Pennstate University
 - Communication
 - Fluctuation
-
- DEC -> social media
 - Small scale project
 - Open science
 - Managing the project and planning
 - Mid-term review -> update

Thank you

Martin Jírovec

Advisor to dean for development and technology transfer
