

VALUE OFFER FOR INTERNATIONAL COOPERATION

Hungarian Research and Innovation Excellence

PARTNER WITH US IN HORIZON EUROPE!

Research Group on Education for Sustainable Development and Awareness

Apáczai Csere János Faculty of Pedagogy,

Humanities and Social Sciences

Széchenyi István University

WHY PARTNER WITH US?

25+ years of experience in Environmental Education and ESD; Forest Pedagogy initiative launched in 1995.

Why partner with us

- Unique ESD expertise combining theory and practice
- Long-standing experience in environmental education & forest school programs
- Proven methods for measuring environmental attitudes and behaviour change

Expertise for your consortium

Design & evaluation of ESD programs; research on awareness, attitudes & behaviour; experiential and nature-based pedagogy; digital and robotics integration (e.g., LEGO-based sustainability education).

Key project experience

- RESZETT – circular economy & LEGO robotics
- INSULA MAGNA – experiential forest school development
- Participation in national & international sustainability projects

Scientific excellence

39+ publications (2025), including Scopus; active international conference presence; research in ESD, environmental attitudes, circular economy education, digital & experiential learning.

Horizon Europe alignment

Cluster 2 focus:

- TRANSFO-01 (nature-based environments & cohesion)
- TRANSFO-05 (AI & innovation in education)
- TRANSFO-06 (learning gaps & inequalities)

Impact

Measurable behavioural change; strengthened environmental awareness; development of sustainability competences; enhanced social cohesion through education.

Collaboration interests

Education & teacher training; sustainability research; digital/AI-supported learning; social innovation & inclusion.
