

## PARTNER WITH US IN HORIZON EUROPE!

**SCENAVIS**  
DEFENSE  
SYSTEMS

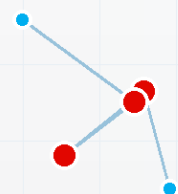

### SOVEREIGN CRITICAL INFRASTRUCTURE RESILIENCE PLATFORM

Geospatial risk intelligence • cascading-impact modelling • protection investment optimisation

#### GEOSPATIAL RISK

Building-scale public layers  
Explainable criticality & exposure

#### CASCADING IMPACT

Dependencies, downtime and  
direct/indirect economic loss

#### PROTECTION OPTIMISATION

Residual risk, investment options  
and executive decision support

ON-PREMISE • AIR-GAPPED • EXPLAINABLE • CIVIL-SECURITY APPLICATIONS

**SCENAVIS**

Critical Infrastructure Resilience Platform

SCENAVIS DEFENSE SYSTEMS Kft. | HUNGARY

## WHY PARTNER WITH SCENAVIS?

- **Established Hungarian SME:** several completed financial years; software engineering, GIS, R&D and defence-related registered activities.
- **Working geospatial demonstrator:** Hungary-scale building layer, offline desktop/portable deployment, replacement-cost estimates, filters and energy-infrastructure mapping.
- **Expertise offered:** explainable Criticality, UAS Exposure, Vulnerability, Recoverability, Dependency and Data Confidence scoring; direct/indirect loss and cascading-impact models.
- **Consortium contribution:** secure on-premise integration, synthetic pilots, dashboards, residual-risk and protection-investment analysis; potential work-package leadership.
- **International technology asset:** Ukrainian UAS and counter-UAS partner for controlled civil testing and validation, subject to eligibility, security and export review.

### TARGET TOPICS, ROLE AND PARTNERS SOUGHT

**Primary topics:** HORIZON-CL3-2026-01-INFRA-01 / INFRA-03 / DRS-02; HORIZON-CL3-2027-01-INFRA-01.

**Preferred role:** Beneficiary and work-package leader for geospatial risk, economic consequence and cascading-impact modelling.

**Partners sought:** Experienced Cluster 3 coordinator; energy, transport/logistics, water or civil-protection practitioners; university/research institute; C-UAS/sensor, cybersecurity and economic-validation partners.

Civil-security applications only | Non-classified / synthetic data for joint development
